

## Media Release

# **‘Vaccinate to Operate’ 10,000 vaccines administered by TTMA!**

**(26th June, 2021)** - The Trinidad and Tobago Manufacturers Association (TTMA) has reached a milestone with the successful administration of 10,000 first dose vaccines to date for the business community.

President of the TTMA, Tricia Coosal stated, “We are elated that TTMA is a solid contributor to the Government’s **‘Vaccinate to Operate’** programme. We thank the Ministry of Health and Ministry of Trade & Industry for the confidence and trust placed in TTMA to execute large vaccination sites. This public-private partnership has worked seamlessly for the vaccination of the business community.”

Tricia Coosal continued, “TTMA feels we are well on our way to a safe reopening of the business sector. TTMA remains steadfast in supporting via partnership with the Government to provide vaccination sites that are efficient in the administration of large numbers on a continuous basis.

Ms. Coosal further emphasized, “TTMA’s commitment is for the administration of both first and second doses, the plan is to commence second dose administration to Phase one 5,000 vaccinated recipients by next week.”

“It is through strong collaboration with TTMA’s vaccination site partners that we were able to reach this vaccination milestone. We deeply appreciate the volunteer assistance of the T&T Medical Association and SEWA TT International and the National Council for Indian Culture. On behalf of TTMA Board of Directors we extend appreciation to all who contributed to the success of this 10,000 doses vaccination administration achievement...***‘vaccination for the nation’***.”
