[†]This Notification (i.e. 51/1969) has been amended by LNs 99 and 114/1984 which have been omitted.

*Note on Approval of New Drugs Notification

The list of new drugs set out in the Schedule to this Notification has been consolidated as at 31st December 1977. This list is so voluminous and changes to it so frequent that, especially in view of its very limited use by the general public, it is not practicable to update it annually. The references to the amendments to this list since 31st December 1977 are contained in the Current Consolidated Index of Acts and Subsidiary Legislation.

†Note on Withdrawal of Approval of New Drugs Notification

For references to the Withdrawal of Approval of New Drugs Notifications subsequent to the year 1969 — *See* the current Consolidated Index of Acts and Subsidiary Legislation.

Note on Omissions

A. Food and Drugs (Angostura Aromatic Bitters) (Exemption) Regulations, 1970 (LN 199/1970).

B. Food and Drugs (Analysis and Inspection Services) Regulations, 1993 (LN 73/1993).

Note on Validation

The Act of this Chapter was re-enacted with retrospective effect and all acts done under it validated by Act 31 of 1980.

Note on Adaptation

Under paragraph 6 of the Second Schedule to the Law Revision Act (Ch. 3:03) the Commission amended certain references to public officers in this Chapter. The Minister's approval of the amendments was signified by LN 120/1980, but no marginal reference is made to this Notice where any such amendment is made in the text.

who, whether as owner, consignee, agent or broker is in possession of the article or in any way entitled to the custody or control of it:

"inspector" means any person appointed as such under section 20;

- "label" includes any legend, word or mark attached to, included in, belonging to or accompanying any food, drug, cosmetic, device or package;
- "manufacturer" means a person who, under his own name or under a trade, design, or word mark, trade name or other name, word or mark controlled by him, sells a food or a drug to the general public or to a wholesaler, jobber, or other distributor for resale to the general public; and includes a firm, partnership or corporation;
- "package" includes anything in which any food, drug, cosmetic or device is wholly or partly contained, placed or packed;
- "prescribed" means prescribed by Regulations made under this Act:
- "preparation" in relation to food, includes manufacture and any form of treatment; and "preparation for sale" includes packaging; and "prepare" and "prepared for sale" shall be construed accordingly;
- "sell" includes offer for sale, expose for sale, have in possession for sale, and distribute;
- "unsanitary conditions" means such conditions or circumstances as might contaminate a food, drug or cosmetic with dirt or filth or render the same injurious to health.

GENERAL

Power of Minister to order the furnishing of particulars relating to composition, use and effects of substances used in food and drugs.

3. (1) For the purpose of enabling him to exercise his functions under this Act, the Minister may by Order require every person who at the date of the Order or at any subsequent time, carries on a business which includes the production, importation, or use of substances of any class specified in the Order to furnish to the Minister, within such time as may be so specified, such particulars as may be so specified, of the composition and use of any such substances which in the course of that business are used, or sold for use, in the preparation of food, drugs or cosmetics.

(2) Without prejudice to the generality of subsection (1), an Order made thereunder may require the following particulars to be furnished in respect of any substance:

- (a) particulars of the composition and chemical formula of the substance;
- (b) particulars of the manner in which the substance is used or proposed to be used in the preparation of food, drug or cosmetic;
- (c) particulars of any investigations carried out by or to the knowledge of the person carrying on the business in question, for the purpose of determining whether and to what extent the substance, or any product formed when the substance is used as aforesaid, is injurious to, or in any other way affects health;
- (d) particulars of any investigations of inquiries carried out by or to the knowledge of the person carrying on the business in question for the purpose of determining the cumulative effect on the health of a person consuming the substance in ordinary quantities.

(3) Any person who, without the previous consent in writing of the person carrying on the business in question, discloses particulars furnished in accordance with an Order under this section, or information relating to any individual business obtained by means of such particulars, except-

- (a) in accordance with directions of the Minister, so far as may be necessary for the purposes of this Act: or
- (b) for the purposes of any proceedings for an offence under this Act or of any report of such proceedings,

is guilty of an offence.

4. (1) Except as prescribed or exempted by Regulations, Prohibition any person who advertises any food, drug, cosmetic or device to advertising the general public as a treatment, preventative or cure for any of diseases, etc. the diseases, disorders or abnormal physical states mentioned in the First Schedule, is guilty of an offence.

himself of the provisions of the said subsection and has disclosed to the prosecutor the name and address of the person from whom he purchased the article and the date of purchase.

Evidence and sufficiency of proof.

30. (1) A certificate of an analyst stating that he has analysed or examined an article or a sample submitted to him by an inspector and stating the result of his examination shall be admissible in evidence in a prosecution for an offence under this Act or the Regulations, and shall be *prima facie* proof of the statements contained in the certificate, subject to the right of the party against whom it is produced to require the attendance of the analyst for the purpose of cross-examination; but no such certificate shall be received in evidence unless the party intending to produce it has, before the trial, given to the party against whom it is intended to be produced, reasonable notice of the intention together with a copy of the certificate.

(2) Proof that a package containing any article to which this Act or the Regulations apply bore a name or address purporting to be the name or address of the person by whom it was manufactured or packaged shall be *prima facie* proof, in a prosecution for an offence under this Act or the Regulations, that the article was manufactured or packaged, as the case may be, by the person whose name or address appeared on the package.

(3) In a prosecution for an offence under this Act or the Regulations it shall be sufficient proof of the offence to establish that it was committed by an employee or agent of the accused whether or not the employee or agent has been prosecuted for the offence; and for the purposes of this subsection, any person selling or ostensibly employed to sell shall be presumed to be employed to sell.

(4) In a prosecution for an offence under this Act or the Regulations a copy of any document or record or an extract therefrom certified to be a true copy by the inspector who made it pursuant to section 21(1)(c) shall be receivable in evidence and shall be *prima facie* proof of the contents thereof.

(5) Where a person is prosecuted under this Act for having

			,	Food and	Drug	75		Chap.	0		19
MINISTRY	OF	THE	ATTORNEY	GENERAL	AND	LEGAL	AFFAIRS		www.leg	alaffairs.go	v.tt

manufactured an adulterated food or drug for sale, and it is established that—

- (a) the food or drug has by Regulation been declared to be adulterated if any prescribed substance has been added thereto; and
- (b) the person had in his possession or on his premises any such prescribed substance,

the onus of proving that the food or drug was not adulterated by the addition of the substance shall be on the accused.

31. For the purpose of this Act and the Regulations Presumptions. thereunder-

- (a) any article commonly used for human consumption shall if sold be presumed, until the contrary is proved, to have been sold for human consumption;
- (b) any article commonly used for human consumption which is found on premises used for the preparation, storage, or sale of that article and any article commonly used in the manufacture of products for human consumption which is found on premises used for the preparation, storage or sale of these products, shall be presumed, until the contrary is proved, to be intended for sale, or for manufacturing products for sale, for human consumption;
- (c) any substance capable of being used in the composition or preparation of any article commonly used for human consumption which is found on premises on which that article is prepared shall, until the contrary is proved, be presumed to be intended for such use.

32. (1) The Minister may order that the manufacturer of any Declaration by article of food, drug or cosmetic shall furnish a declaration in and certificate prescribed form that the article in question as manufactured by him has been made in accordance with all requirements of this drugs, cosmetics, or Act and the Regulations, and any person who fails to comply devices. with any such order is guilty of an offence.

	OF THE ATTORNET	GENERAL AND LEGAL AFFAIRS	www.iegalaffairs.gov.tt

(2) Except as provided by the Regulations, no article of food, drug, cosmetic or device shall be imported into Trinidad and Tobago unless the article wholly conforms to the law of the country in which it was manufactured or produced and is accompanied by a certificate in prescribed form and manner that the article does not contravene any known requirement of the law of that country and that its sale therein would not constitute a violation of the law thereof.

Penalties. **33.** Every person who commits an offence under this Act is liable—

- (*a*) on summary conviction for a first offence to a fine of one thousand five hundred dollars and to imprisonment for three months, and for a subsequent offence to a fine of three thousand dollars and imprisonment for six months; and
- (b) on conviction on indictment to a fine of fifteen thousand dollars and to imprisonment for three years.

Time limit on prosecutions.

34. A prosecution under section 33(a) may be instituted at any time within twelve months from the time the subject matter of the prosecution arose.

[Subsidiary]	Food and Drugs Regulations		

14. In this Part—

PART II

Definition of terms in Part II. [94/1969 52/1974 118/2003].

"alcoholic beverage" means a liquid food containing sufficient ethyl alcohol to make it liable to Excise duty and includes—

- (a) a spirit, liqueur, wine, cider, perry, champagne or spirit compound used as a food; and
- (b) a brewery product containing sufficient ethyl alcohol to make it liable to Excise duty,

but does not include a flavouring preparation or liquid food in which ethyl alcohol is used as a preservative;

- "alcoholic content by volume" means the volume of ethyl alcohol in a food, expressed as a percentage of the total volume of the food;
- "baked confectionery" means any solid or semi-solid food ready for human consumption without any further preparation except heating, and which is principally composed of ground cereal (not including a filling) whether or not flavoured, coated or containing sweetening agents, chocolate or cocoa and includes cakes, pastries, sponges and meringues but does not include bread, biscuits, rusks or any product containing meat, fish, fruit or fruit pulp as a filling;
- "batch number" or "lot number" means any letters or figures or a combination of both used for marking, identifying or tracing a batch or lot of pre-packaged food when manufactured, distributed or sold, and includes a date mark;
- "biscuits" includes crisp bread, wafers, rusks, oatcakes and biscuits which have been coated, filled or flavoured with chocolate or cocoa;
- "brewery product" means a beverage which is derived from a cereal and includes a beverage which is manufactured, distributed or sold under any of the following common names:
 - (*a*) ale;
 - (b) beer;
 - (c) lager or lager beer;

UNOFFICIAL VERSION

LAWS OF TRINIDAD AND TOBAGO MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt Food and Drugs Chap. 30:01 33 Food and Drugs Regulations [Subsidiary]

(d) malta;

(e) malt liquor;

(f) porter;

(g) shandy; or

(*h*) stout;

- "bulk container" means a container in which more than one duly labelled package of a food and its contents are placed for purposes of wholesale, but in which the packages and their contents are not intended to be retained for retail sale;
- "chocolate confectionery" means any solid or semi-solid food principally composed of chocolate or cocoa with or without the addition of fruits or nuts, and includes food made by covering, coating or embodying sugar confectionery in chocolate but does not include biscuits which have been cooked, filled or flavoured with chocolate or chocolate ice cream, or baked confectionery flavoured with chocolate;

"common name" means the name printed in bold type in these Regulations or—

- (*a*) where the name is not so printed, the name by which the food is generally known and which is sufficient in each particular case to indicate to the purchaser the true nature of the food; or
- (b) where the name of the food consists of the common names of two or more of its principal ingredients, the common names of these ingredients arranged in descending order of proportion by weight;

"component" means any substance which forms part of an ingredient;

- "confectionery" includes baked confectionery, chocolate confectionery and sugar confectionery;
- "date mark" means any declaration by letters or figures, whether declared expressly or in code, of any date indicative of the age of a food;
- "expiry date" means any date after which the manufacturer or packager of a food does not guarantee the quality or any other property of the food;

MINISTRY OF	THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt

(Systeme Internationale) units or imperial (Avoirdupois) units, or any accepted abbreviations thereof until such terms are varied with respect to any class of food by notice made by the Minister and published in the *Gazette;* the notice shall state specifically the date on or after which the variation becomes effective.

(3) Where a food is packed in a liquid medium which is usually not consumed with the food, a declaration of the drained weight of the food shall be made.

(4) The list of ingredients required by subregulation (1)(b)(i) shall include the components of any ingredient which is not exempted by these Regulations from being labelled with a list of its ingredients.

(5) In the case of a dehydrated food the ingredients shall be listed in descending proportion by weight in the food when it is reconstituted and the list shall begin with a statement such as "ingredients when reconstituted".

(6) Except when it is present as a usual component of an ingredient (such as gravy, broth, brine, milk or syrup), or when it is used in usual manufacturing processes, added water shall be declared as an ingredient.

(7) A distinct and specific name shall be used in the list of ingredients for each ingredient (other than a food additive sold as such) except that the class titles may be used—

- (a) in the case of ingredients falling into the following classes:
 - animal fats (except pork and beef fats and tallow);

animal oils (except pork and beef oils and tallow)

animal shortening (except pork and beef shortening);

herbs;

marine oils (that is to say oils from marine animals);

spices;

starches (except modified starches);

(10) The declarations specified in subregulation (1) and in regulation 16A shall be made in English but where a label is applied to a food in a country the official language of which is not English, the declarations shall appear in English on any panel except the bottom of the package.

LAWS OF TRINIDAD AND TOPACO

16A. (1) Every manufacturer or distributor of a breast-milk Labelling of substitute shall display on the outer label of the container-

breastfeeding substitutes. [9/1985].

- (a) a statement headed "Important Notice" proclaiming the superiority of breastfeeding over other methods of infant feeding and advising that such substitute should be used only on proper medical advice having been obtained as to the need for, and the proper methods of its use;
- (b) directions for use and a warning of the consequences of failure to follow those directions.

(2) The manufacturer or distributor of a breast-milk substitute shall not display on the container or label—

- (a) any statement, picture or other visual impression of a person that would tend to encourage the use of that substitute in preference to breast-milk;
- (b) the words "humanised" or "maternalised" or any such words that may tend to extol the virtues of that substitute.

(3) The manufacturer or distributor of every food product which is not a breast-milk substitute but which is capable of being modified to become one, shall include on the label a warning that the product is not to be used as the sole source of nourishment for babies.

(4) The manufacturer or distributor of condensed milk shall not include on the label, instructions for its modification as a baby food.

(5) In addition to the provisions of this regulation the provisions of regulation 16 also apply to manufacturers or distributors of breast-milk substitutes.

[Subsidiary]		Food and Drugs Regulations

Labelling of beverages containing alcohol. [118/2003]. **16B.** (1) This regulation applies to the labelling of a beverage containing alcohol in addition to regulation 16.

LAWS OF TRINIDAD AND TOBAGO

(2) The common name of an alcoholic beverage associated with a particular country or locality shall not be applied to an alcoholic beverage produced in any country unless the name is generally recognised as being associated with the distinctive type of alcoholic beverage.

(3) The common name of an alcoholic beverage associated with a particular type of alcoholic beverage produced in a particular country or locality and protected by the law of the country, may only be applied to an alcoholic beverage produced in another country where the common name is preceded by a name or adjective in identical lettering, indicating the true country or locality of origin.

(4) Subject to subregulations (5) and (6), the common name "wine" shall be applied to an undistilled fermented alcoholic beverage prepared from fresh or preserved grapes.

(5) The common name "(naming the fruit, flower, leaf, grain or other botanical substance) wine" shall be applied to an undistilled fermented alcoholic beverage prepared wholly or principally from a fruit, flower, leaf, grain or other botanical substance, other than fresh or preserved grapes.

(6) The common name "non-alcoholic wine" may be applied to a beverage prepared principally from a fruit, which although not an alcoholic beverage, resembles it but shall not be applied to a beverage which contains more than 0.5 per cent alcoholic content by volume.

(7) The label on the package of a beverage containing more than 1.0 per cent alcoholic content by volume, shall state on its main panel, its alcoholic strength in terms of any of the following:

- (a) alcoholic content by volume;
- (b) degrees Gay-Lussac (°G.L.);
- (c) degrees proof spirit or per cent proof spirit;
- (d) degrees or per cent U.S. proof; or
- (e) any other term authorised by the Minister.

UNOFFICIAL VERSION

t
1

(8) The common names "brandy", "rum", "gin" or "vodka" shall not be applied to an alcoholic beverage, the alcoholic strength of which is below seventy-five degrees proof spirit, except in the case of fruit brandy and brandy that has been matured in a cask.

LAWS OF TRINIDAD AND TOBAGO

(9) The common names referred to in subregulations (2) and (3) may be in a language other than English, but shall be printed in the English alphabet, with accent marks where appropriate.

16C. (1) This regulation applies to the labelling of a brewery Labelling of product in addition to regulation 16 and where there is a conflict brewery between this regulation and regulation 16, this regulation prevails. [118/2003].

products.

(2) The label on the package of a brewery product for retail sale shall state, on any panel except the panel at the bottom of the package-

- (a) the name and address of the manufacturer;
- (b) the name and address of the person preparing the brewery product, where different from the name and address of the manufacturer;
- (c) the country of origin;
- (d) the name and address of the importer or the distributor, if any;
- (e) its alcoholic strength in terms of alcoholic content by volume; and
- (f) a declaration of the net contents.

(3) Notwithstanding regulation 18(1)(d), the label on a package of shandy for retail sale shall state, in addition to the information set out in subregulation (2)-

- (a) the vegetable flavour, juice or extract used in the shandy, if any; and
- (b) a list of ingredients in descending order of proportion by weight.

(4) Notwithstanding regulation 18(1)(d), the label on a package of malta for retail sale shall state, in addition to the information set out in subregulation (2)-

- (a) the word "non-alcoholic"; and
- (b) a list of ingredients which may include the word "wort".

purchaser, a label bearing all information regarding the food as prescribed by these Regulations, and in particular the trade name or common name of the food and the quantity thereof to be sold.

(2) Where a food that has been pre-packaged is sold in or from a vending machine each package shall be labelled as prescribed by these Regulations.

(3) For the purposes of regulation 16, the outer surface of any crown cork or closure on a glass bottle used for packaging carbonated beverages or liquid dairy products may be accepted as a main panel for a period not exceeding ten years after the coming into operation of the Food and Drugs (Amendment) Regulations 1974 (that is, 28th February 1974).

(4) Any new glass bottles used for packaging carbonated beverages or liquid dairy products shall, on the expiration of one year from the coming into operation of the Food and Drugs (Amendment) Regulations 1974 (that is, 28th February 1974), bear clearly and legibly as a label fixed on the body of the bottle, the name and address of the manufacturer and a statement of net contents as prescribed by regulation 16.

(5) Glass bottles, used for packaging international brands of carbonated beverages, which may be imported by way of a chandler's trade with ships, aircraft or hovercraft or any other means of international transport may be used for packaging such brands in Trinidad and Tobago if the Director is satisfied that the brands are international brands.

(6) A manufacturer of carbonated beverages who has changed his address may continue to use his former address on old glass bottles if the Director is informed of the new address.

Non-application of regulation 16. [52/1974 118/2003].

- **23.** (1) Regulation 16 does not apply to a food which is—
 - (a) sold unpackaged, or in an open or uncovered package;
 - (b) weighed or measured in or counted into the package in the presence of the purchaser, or weighed, measured or counted in the presence of the purchaser before being packaged;

58	Chap. 30:01	Food and Drugs	
[Subsidiary]		Food and Drugs Regulation	15

Name and proportion of drug to be stated on label.

38. Notwithstanding regulation 34(b)(v), where a Patent or Proprietary Medicine contains a narcotic drug, a Third Schedule drug, or a controlled drug, the name and proportion of such drug shall, subject to regulation 36, be stated on the label.

LAWS OF TRINIDAD AND TOBAGO

Label to contain all information.

39. Where a package of a drug has only one label, that label shall contain all the information required by these Regulations to be shown on both the inner and outer labels.

Information clearly and prominently displayed. **40.** All information required by this Part to be carried on a label of a drug shall be clearly and prominently displayed thereon, and readily discernible to the purchaser or consumer under the customary conditions of purchase or use.

41. No reference, direct or indirect, to the Act, to these

Regulations, or to the Ministry of Health, shall be made upon any label or in any advertisement, of a drug unless the reference is a

specific requirement of the Act or of these Regulations.

Reference to drug.

Drug to conform to standard.

42. Where by any law in force in Trinidad and Tobago, a standard is prescribed for a drug and that standard is given a name or designation by the law, no person shall use that name or designation on a label, or in any advertisement, of that drug, unless the drug conforms to the standard.

Parenteral, Third Schedule or controlled drugs.

First Schedule.

43. Where it is necessary to provide adequate directions for the safe use of parenteral drugs, Third Schedule drugs, or controlled drugs, that are used in the treatment or prevention of any of the diseases, disorders, or abnormal physical states, mentioned in the First Schedule to the Act, the diseases, disorders, or abnormal physical states may be mentioned in the inserts accompanying the drugs, and, to such extent, the drugs are hereby exempted from the provisions of section 4(1) of the Act.

Exemption from section 4(1).

44. A drug when distributed in accordance with section 13(2) of the Act is hereby exempted from the provisions of section 4(1) of the Act as regards any inserts accompanying the drug.

FIRST SCHEDULE

Regulation 30. [94/1969 53/1972

105/1974 111/1986

DIVISION 1—BAKING POWDER

1. Baking Powder shall be a combination of sodium bicarbonate, an acid-reacting material mentioned in paragraph 2, and starch or other neutral material, and shall yield not less than 8 per cent of its weight of carbon dioxide 18/2003]. as determined by the official method.

- 2. The acid-reacting material of baking powder shall be-
 - (a) tartaric acid or its salts or both; or
 - (b) acid salts of phosphoric acids.

DIVISION 2—FOOD COLOURS

- 1. In this Division-
 - (a) "pure dye" means the synthetic dye contained in a synthetic food colour;
 - (b) "preparation" means a preparation of one or more synthetic food colours containing less than 15 per cent pure dye and sold for household use in containers of two ounces net or less.
- 2. (1) A carbonated beverage is adulterated if it contains—
 - (*a*) saccharin and its salts at levels in excess of 300 parts per million either as the sole sweetening agent or in combination with aspartame;
 - (b) aspartame and its salts at levels in excess of 0.1 per cent either as the sole sweetening agent or in combination with saccharin; or
 - (c) any other synthetic sweetening agent including cyclohexlysulphamic acid and its salts.

(2) The label on any carbonated beverage containing saccharin at levels of 300 parts per million and below shall carry statements to the effect that—

- (a) the beverage is a diet drink;
- (b) the beverage is sugar free;
- (c) the beverage is low-calorie and carbonated;
- (d) low-calorie drinks are not recommended for use by children;
- (e) use of the beverage may be hazardous to health.

(3) The label on any carbonated beverage containing aspartame at levels of 0.1 per cent and below shall carry statements to the effect that—

- (*a*) the beverage is a diet drink;
- (b) the beverage is sugar free;
- (c) the beverage is low-calorie and carbonated;
- (d) low-calorie drinks are not recommended for use by children;
- (*e*) the beverage contains phenylalanine and should not be taken by persons who are suffering from phenylketonuria.

7. Notwithstanding paragraphs 2, 3 and 6, the Minister may, on the advice of the Food Advisory Committee, withdraw, by notice published in the *Gazette*, approval with respect to any food colour which is toxic or capable of producing toxic effects; and on publication of any such notice, paragraphs 2, 3 and 6 shall cease to apply with respect to that food colour.

DIVISION 3—DAIRY PRODUCTS

1. The foods referred to in this Division are included within the term "dairy product".

2. Except as provided in this Division, a dairy product that contains a fat other than milk fat is adulterated.

MILK

3. **Milk or (Whole Milk)** shall be the normal lacteal secretion obtained from the mammary gland of the cow, genus Bos, and shall be free from colostrum, and shall contain—

- (a) not less than 3.0 per cent of milk fat;
- (b) not less than 8.5 per cent of milk solids not fat; and
- (c) not more than 20 parts per million of dirt.

By dirt is meant all matter insoluble in, and foreign to, milk as it leaves the cow's udder.

The milk from animals other than bovine species shall be given a designation appropriate to its source.

4. **Milk Products** shall be products of which the components are exclusively derived from milk, and may contain added substances necessary for manufacture or intended to enrich the natural vitamins and salts in the products if these added substances do not replace, either completely or partly, any constituent whatsoever of milk.

5. **Reconstituted Milk** shall be labelled as such, and shall be a milk product resulting from the combining of milk constituents with water, and shall contain not less than—

- (a) 3.0 per cent of milk fat; and
- (b) 8.5 per cent of milk solids not fat.

6. Milk Fat or Butter Fat shall be the fat of cow's milk, and shall have—

- (a) a specific gravity of not less than 0.905 at a temperature of 40° C.;
- (b) a Reichert-Meissl number not less than 24; and
- (c) a Polenske number not exceeding 10 per cent of the Reichert-Meissl number, and in no case shall the Polenske number exceed 3.5; and

UNOFFICIAL VERSION

MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt

64	Chap. 30:01	Food and Drugs	
[Subsidiary]		Food and Drugs Regulations	

where the Polenske number exceeds 10 per cent of the Reichert-Meissl number, there shall be deemed to have been an addition to the milk fat of fat other than that of cow's milk.

7. **Sterilised Milk** shall be milk, or a milk product, that has been heated to a temperature of at least 100°C. for a length of time sufficient to kill all the organisms present, and shall be delivered to the consumer in hermetically sealed containers, and shall contain not less than—

- (a) 3 per cent of milk fat; and
- (b) 8.5 per cent of milk solids not fat.

8. **Flavoured Sterilised Milk** shall be sterilised milk with cocoa, chocolate, or a flavouring preparation and shall contain not less than—

- (a) 2.5 per cent of milk fat; and
- (b) 8.5 per cent of milk solids not fat,

and may contain stabiliser and sugar.

9. **Condensed Milk or Sweetened Condensed Milk** shall be milk, or a milk product, from which water has been evaporated and to which sugar has been added, and shall contain not less than—

- (a) 28 per cent of milk solids; and
- (b) 8 per cent of milk fat,

and may contain added vitamin D.

10. **Evaporated Milk or Unsweetened Condensed Milk** shall be milk, or a milk product, from which water has been evaporated, and shall contain not less than—

- (a) 25.0 per cent of milk solids;
- (b) 7.5 per cent of milk fat;

and may contain-

- (c) added vitamin D;
- (d) disodium phosphate, or sodium citrate, or both, added in a total quantity of not more than 0.1 per cent of the finished product.

11. Skim Milk (Skimmed Milk) shall be milk from which all or most of the milk fat has been removed.

12. Milk Powder, Dry Milk, Dry Whole Milk, Powdered Milk or Powdered Whole Milk shall be dried milk, and shall contain not less than—

- (a) 95 per cent of milk solids; and
- (b) 26 per cent of milk fat,

and may contain added vitamin D.

 Chap. 30:01
 65

Food and DrugsChap. 50.0105Food and Drugs Regulations[Subsidiary]

13. Skim (Skimmed) Milk Powder, Dry Skim (Skimmed) Milk or Powdered Skim (Skimmed) Milk shall be dried skim milk and shall contain not less than 95 per cent of milk solids, and may contain added vitamin D.

14. **Partly Skimmed Milk Powder, or Half Cream Milk Powder** shall be dried milk and shall contain not less than—

- (a) 95 per cent of milk solids; and
- (b) 13 per cent of milk fat.

15. **Quarter Cream Milk Powder** shall be dried milk not being either dry whole milk or half cream milk powder and shall contain not less than—

- (a) 95.0 per cent of milk solids; and
- (b) 8.0 per cent of milk fat.

16. **Pasteurised Milk** shall be milk that has been pasteurised as in paragraph 18 and shall be delivered to the consumer in suitable capped or sealed containers.

17. No milk or milk product shall be labelled "Pasteurised" unless it has been treated in the manner described in paragraph 18.

18. (1) For the purposes of this Division—

"pasteurisation" means the process of heating every particle of milk or milk products either—

- (a) to a temperature of not less than 62.8°C. (145°F.) holding it at such temperature for a period of not less than 30 minutes, cooling it immediately thereafter to a temperature of 10.0°C. (50°F.) or lower; or
- (b) to a temperature of not less than 71.7°C. (161°F.) holding it at such temperature for a period of not less than 15 seconds, cooling it immediately thereafter to a temperature of 10.0°C. (50°F.) or lower; and

"pasteurised" shall be construed accordingly.

(2) Pasteurisation shall be carried out under conditions of processing approved by the Director.

19. **Butter** shall be the food, prepared by gathering the milk fat of milk or cream into a mass that may also contain a portion of the other milk constituents not separated in good manufacturing practice, and shall contain—

- (a) not less than 80 per cent of milk fat; and
- (b) not more than 16 per cent of moisture,

and may contain salt and food colour.

UNOFFICIAL VERSION

L.R.O.

MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt

66	Chap. 30:01	Food and Drugs

20. **Cooking Butter** shall be labelled as such, and shall be butter prepared as described in paragraph 19, and shall contain—

- (a) not less than 80 per cent of milk fat; and
- (b) not more than 12 per cent of salt; and
- (c) not more than 0.25 per cent of free fatty acids expressed as butyric acid, and may contain food colour.

21. **Ghee** shall contain not less than 98 per cent of milk fat, without any admixture of other fat.

22. **Ice Cream** shall be the frozen food made from milk or milk products and sweetened with sugar, and shall contain not less than—

- (*a*) 8 per cent of fat;
- (b) 36 per cent of solids;
- (c) 7.5 per cent of milk solids not fat;
- (d) 1.8 pounds of solids per Imperial gallon;

and may contain-

- (e) edible oil or fat;
- (f) egg;
- (g) flavouring preparation;
- (*h*) cocoa or chocolate syrup;
- (i) food colour;
- (*j*) acid-reducing salts;
- (k) fruit, nuts, confections; and
- (l) stabilisers comprising—
 - (i) not more than 1.0 per cent of gelatin alone; or
 - (ii) not more than 0.5 per cent of other stabiliser; or
 - (iii) not more than 0.75 per cent of a mixture of gelatin and other stabilisers, of which the proportion of other stabilisers may not exceed 0.25 per cent.

23. No person shall sell ice cream in which the complete mixture has not been pre-treated or pasteurised immediately before freezing in accordance with conditions approved by the Director.

For the purpose of this paragraph, "pre-treated" means that the complete mixture shall be brought to the boil and cooled in a covered container.

24. **Dairy Ice Cream** shall be ice cream as defined in paragraph 22 except that all the fat therein shall be milk fat only, except such traces as may be introduced by the use as an ingredient of any egg, any flavouring substance or any emulsifying or stabilising agent.

Food and DrugsChap. 30:0167Food and Drugs Regulations[Subsidiary]

25. Ultra Heat Treated Milk, or U.H.T. Milk, shall be milk that has been heated at a temperature of 132.2°C. (270°F.) for a period of not less than one second. The following requirements shall be satisfied in its processing:

- (*a*) any apparatus in which the milk is to be heated to and maintained at a temperature of not less than 132.2°C. (270°F.) shall be provided with a device which shall automatically divert the flow of any milk which is not raised to the authorised temperature;
- (b) any indicating and recording thermometers as the Director shall reasonably consider necessary shall be installed in suitable places in the apparatus in which the milk is treated by the ultra high temperature method so as to indicate the temperatures to which the milk is heated;
- (c) the records of recording thermometers shall be marked with graduations of 2°F., adequately spaced to give clear readings, and they shall be dated and shall be preserved for a period of not less than three months;
- (d) a sample of milk taken in accordance with the official method from a batch of milk after treatment by the ultra high temperature method and before delivery to the consumer shall satisfy the colony count test prescribed in the official method;
- (e) milk which is treated by the ultra high temperature method shall immediately after the treatment be put into sterile containers in which it is to be supplied to the consumer. The containers shall be filled and sealed at the premises at which the treatment has been carried out with such aseptic precautions as will ensure the protection of the milk from risk of contamination;
- (f) every container in which milk treated by the ultra high temperature method is transported, exposed or offered for sale shall be so closed and securely fastened, either with a cap overlapping the lip of the container or in some other suitable manner approved by the Director, that the container is airtight;
- (g) every cap closing a container of milk treated by the ultra high temperature method shall be conspicuously and legibly labelled and marked with the words "Ultra Heat Treated Milk" or "U.H.T. Milk", and shall also bear the name and address of the person by whom the milk was put into the container, and, except with the approval of the Director, the cap shall bear no other words. If there is no cap on which the words and the name and address of such person can suitably be marked, they shall be marked within a surrounding line in a prominent position on the container, and except with the approval of the Director, no other words shall be placed within the surrounding line.

DIVISION 4—EDIBLE OILS AND FATS

1. **Cooking Oil or Edible Oil** shall be a refined product of coconut oil, and shall contain not more than 0.08 per cent of acid expressed as lauric acid, and may contain such other oil as may be approved by the Minister.

2. Cooking Butter Substitute or Cooking Margarine shall be labelled as such, and shall contain—

- (a) not less than 80 per cent of fat; and
- (b) not more than 12 per cent of salt; and

may contain food colour, preservative and added vitamins.

3. **Margarine** shall be labelled as such and shall contain not less than 80 per cent of fat, and may contain food colour, preservative, salt, and added vitamins.

4. **Phalka Ghee, Ghee Substitute or Vegetable Ghee** shall contain not less than 98 per cent of fat other than animal fat.

- 5. Olive Oil shall be the oil of the fruit of the olive tree and shall have—
 - (*a*) a specific gravity at 20°/20°C. of not less than 0.910 and not more than 0.918;
 - (b) a refractive index at 40°C. of between 1.4605 and 1.4635;
 - (c) an Iodine value (Hanus) of not less than 78 and not more than 88; and
 - (d) a saponification value of not less than 185 and not more than 195.

6. **Vegetable Fats and Oils** shall be obtained entirely from the botanical source after which they are named, and shall be prepared or processed so as to be dry and sweet in flavour and odour, and may contain Class IV preservative.

7. Animal Fats and Oils shall be obtained entirely from animals healthy at the time of slaughter, and shall be prepared or processed so as to be dry and sweet in flavour and odour, and may contain Class IV preservative.

8. Soya Bean Oil or Soybean Oil shall be the oil derived from soya beans [the seeds of *Glycine max* (L.) Merr.] and shall have—

- (a) the following characteristics of identity:
 - (i) a density at 20°C. relative to water at 20°C. of not less than 0.919 and not more than 0.925;
 - (ii) a refractive index at 40°C. (n_D 40°C.) between 1.466 and 1.470;

L.R.O.

MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt

74	Chap. 30:01	Food and Drugs	
[Subsidiary]		Food and Drugs Regulations	

(iii) the maximum peroxide value shall be 10.0 milliequivalents of oxygen per kilogram of oil.

DIVISION 5—FLAVOURING PREPARATIONS

1. A flavouring extract or essence shall be a solution in ethyl alcohol, glycerol, or propylene glycol, or any combination of these, of sapid or odorous principles, or both, and shall be derived from the plant after which the flavouring extract or essence is named, and may contain—

- (a) water;
- (b) a sweetening agent;
- (c) food colour; and
- (d) a Class II or Class IV preservative.

2. Where a flavouring extract or essence is mixed with other flavouring extracts or essences, the label shall carry a statement of the names of all the extracts or essences so mixed and each of those names shall be deemed to comprise the name of the extract or essence.

3. An artificial, imitation, substitute, or synthetic flavouring extract or essence shall be a flavouring extract or essence except that the flavouring principles shall be derived in whole, or in part, from sources other than the aromatic plant after which it is named.

DIVISION 6—POISONOUS SUBSTANCES IN FOOD

1. No person shall sell any food in a container that may yield to its contents any substance that may be injurious to the health of a consumer of the food.

2. Except as otherwise provided, a food named in the Table herein set forth, which contains in or upon it—

- (a) any or all of the poisonous or harmful substances listed in the Table in amounts not exceeding the quantities stated therein in parts per million (p.p.m.) for that food, as determined by an acceptable method; and either
- (b) no other poisonous or harmful substances; or
- (c) other poisonous or harmful substances in amounts not considered by the Minister likely to be injurious to health,

is hereby exempted from the provision of section 5(a) of the Act.

 roou unu Drugs	Chap. 50.01	19
Food and Drugs Regulations		[Subsidiary]

2. Wine Vinegar shall be vinegar made from wine, and may contain caramel.

3. Spirit Vinegar or Alcohol Vinegar, Distilled Molasses Vinegar, White Vinegar or Grain Vinegar shall be vinegar made from diluted distilled alcohol.

4. **Malt Vinegar** shall be vinegar made from an infusion of malt undistilled prior to acetous fermentation, and may contain other cereals and caramel.

5. Cider Vinegar or Apple Vinegar shall be vinegar made from the liquid expressed from apples, and may contain caramel.

6. If any reference is made to the strength of a vinegar by any statement, mark, or device on the label of or in any advertisement of a vinegar, the label shall carry a statement of the strength of the vinegar declared in per cent, and the strength of the vinegar shall be calculated in terms of acetic acid.

7. The maximum limit for the acetic acid content of vinegar does not apply to vinegar sold for manufacturing use only, if the vinegar is so identified by the use of the words, "For Manufacturing Use Only" on the label of the package.

8. Solutions of acetic acid prepared by diluting concentrated or glacial acetic acid with water, with or without the addition of food colour or other material, shall not be sold in any package bearing on the label the word "Vinegar" or the words "Salad Dressing" or any other word or words which may lead the purchaser to believe that the contents consist either wholly or in part of vinegar as defined in paragraph 1.

9. Solutions of acetic acid prepared as described in paragraph 8 shall, subject to paragraph 10, be labelled "Dilute Acetic Acid (Food Grade)" and shall contain not less than 4.0 per cent, nor more than 12.0 per cent of acetic acid.

10. Paragraph 9 does not apply to the preparation and sale in registered pharmacies of acetic acid solutions for medicinal purposes.

DIVISION 9—FRUIT JUICES

1. **Canned Fruit Juice** shall be the unfermented liquid expressed from sound, ripe, fresh fruit, and may contain—

(a) sweetening agent; and

(b) a Class II preservative,

and shall be packed in hermetically sealed metal containers.

UNOFFICIAL VERSION

L.R.O.

MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt

80	Chap. 30:01	Food and Drugs	
[Subsidiary]		Food and Drugs Regulations	

2. **Canned Grapefruit Juice** shall be the fruit juice obtained from grapefruit, and shall contain, in 100 millilitres measured at a temperature of 20°C.—

- (a) not less than 9.5 grams of soluble solids before addition of any sweetening agent;
- (b) not less than 0.3 grams of ash; and
- (c) not less than 1.0 gram and not more than 2.2 grams of acid calculated as anhydrous citric acid,

and shall be packed in hermetically sealed metal containers.

3. **Canned Orange Juice** shall be the fruit juice obtained from oranges, and shall contain in 100 millilitres measured at a temperature of 20°C.—

- (a) not less than 10 grams of soluble solids before addition of any sweetening agent;
- (*b*) not less than 0.4 grams of ash; and
- (c) not less than 0.5 grams and not more than 1.9 grams of acid calculated as anhydrous citric acid,

and shall be packed in hermetically sealed metal containers.

4. The label of canned fruit juice shall carry a declaration by name of any added sweetening agent.

DIVISION 10—COFFEE

1. **Green Coffee, Raw Coffee or Unroasted Coffee** shall be the seed of *Coffea arabica* L., C. liberica Hiern., or *C. robusta* chev., freed from all but a small portion of its spermoderm.

2. Coffee (Roasted Coffee) shall be roasted green coffee, and shall contain-

- (a) no other added or extraneous matter, except added sugar to the extent of not more than 10 per cent;
- (*b*) not more than 6 per cent of total ash;
- (c) not more than 25 per cent of water-soluble extract before addition of any sugar, as determined by an acceptable method.

3. **Instant Coffee** shall be a dried, aqueous extract of pure coffee, and may contain such added carbohydrate material as may be found necessary or desirable for good manufacturing practice.

4. Notwithstanding regulation 17, no person shall sell any coffee containing added sugar in a package unless the package is distinctly labelled with the words "contains added sugar".

Food and Drugs Regulations		[Subsidiary]

DIVISION 11—SYNTHETIC SWEETENERS

1. For the purpose of this Division, "synthetic sweetener" means a low calorie non-nutritive sweetener which provides little or no energy while having a high intensity sweetening purpose.

2. Subject to paragraph 3, the following synthetic sweeteners shall be deemed to be approved by the Minister:

- (*a*) synthetic sweeteners certified by the Food and Drug Directorate of Canada;
- (b) synthetic sweeteners certified by the Food and Drug Administration of the United States of America;
- (c) synthetic sweeteners certified for use by the European Union;
- (*d*) synthetic sweeteners approved for use in food by the Food and Agriculture Organisation of the United Nations and by the World Health Organisation; and
- (e) synthetic sweeteners approved by the Codex Alimentaries Commission.

3. (1) The Minister may on his own or on the advice of the Food and Advisory Committee withdraw the approval with respect to any synthetic sweetener which may be hazardous to health.

(2) A withdrawal under subregulation (1) shall be by Notice published in the *Gazette*.

(3) Where a Notice has been published with respect to a synthetic sweetener under these Regulations, an approval with respect to that synthetic sweetener shall cease.

(4) The Minister may, on the advice of the Food Advisory Committee stipulate the proportions and conditions for any synthetic sweetener for use in any food.

(5) For the purpose of this Division "carbonated beverage" means a non-alcoholic beverage that is impregnated with carbon dioxide under pressure and is package for sale in hermetically sealed containers.

(6) A carbonated beverage is adulterated if it contains-

- (a) saccharin and salts at levels in excess of 300 parts per million either as a sole sweetener or in combination with any other synthetic sweetener(s);
- (b) aspartame at levels in excess of 1000 parts per million either as a sole sweetener or in combination with any other synthetic sweetener(s);

[Subsidiary]		Food and Drugs Regulations	_

DIVISION 13-MEAT AND PROCESSED MEAT

1. In this Division—

"accepted method" means any commonly accepted practice used by the various ethnic and religious groups in Trinidad and Tobago or any officially recognised practice for killing animals for the purpose of food;

"animal" means any animal used as food, but does not include marine or fresh water animals;

"filler" means—

- (*a*) flour or meal prepared from grain, or from other farinaceous edible vegetable (excluding legumes);
- (b) bread, biscuits, or bakery products, excluding those made with legumes;
- (c) milk powder, skim milk powder, butter milk powder, or whey powder;
- "type" means the common name denoting the animals from which the food was derived, such as beef, veal, pork, lamb, mutton, goat, poultry and other common names.

2. **Meat** shall be the edible part of the skeletal muscle of an animal which was healthy at the time of slaughter, or muscle that is found in the tongue, heart or oesophagus, with or without the accompanying and overlying fat, together with the portions of bone, skin, sinew, nerve and blood vessels that normally accompany the muscle tissue and are not separated from it in the lips, snout, scalp or ears.

3. **Meat By-product** shall be any edible part of an animal, other than meat, that has been derived from one or more animals, which were healthy at the time of slaughter.

4. **Prepared Meat, or Prepared Meat By-Product** shall be meat or meat by-product respectively whether comminuted or not, to which has been added any other ingredient permitted by these Regulations, or which has been preserved, canned or cooked.

5. Meat, meat by-product or preparations thereof, are adulterated if any of the following substances or class of substance is present therein, or has been added thereto:

- (*a*) mucous membranes, any organ or portion of the genital system, black gut, spleens, udders, lungs, or any other organs or portions of an animal that are not commonly sold as an article of food;
- (b) preservatives, other than Class I preservatives;
- (c) colour other than caramel.

Food and Drugs Chap. 30:01	85
Food and Drugs Regulations	[Subsidiary]

6. A food that consists wholly or in part of a meat by-product or a prepared meat by-product shall be labelled with—

(a) the words "meat by-product"; and

(b) the name of the meat by-product.

7. The carcass or any part thereof of an animal used for food shall be obtained from an animal killed by an accepted method.

8. No animal shall be used for food which was affected with disease at the time it was killed.

9. No person shall sell as food the carcass of an animal or any part thereof that was not killed by an accepted method, or of an animal that was affected with disease at the time it was killed.

10. No person shall sell as food, meat, meat by-products, preparations containing meat and meat derivatives obtained, prepared, or manufactured from the carcass of an animal that was not killed by an accepted method, or from an animal that was affected with disease at the time it was killed.

11. Where meat, meat by-product, or preparations thereof are derived from an animal killed by an accepted method associated with a religious or ethnic group, the food shall be labelled appropriately—

- (*a*) "Halal", for animals killed by the method accepted by the religion of Islam;
- (*b*) "Kosher", for animals killed by the method accepted by the Jewish religion.

12. Minced (naming the type) Meat or Ground (naming the type) Meat shall be a comminuted (naming the type) meat preparation, and shall contain not more than 30 per cent of fat, which shall be comprised of fat normally adherent to the meat used, and when the preparation is represented as being lean, it shall contain less than 18 per cent of fat.

13. The preparation known in Trinidad and Tobago as "saw-dust" shall not be sold as minced or ground meat.

14. **Sausage or Sausage Meat** shall be comminuted meat, either fresh or preserved, with added salt and spices, and may contain—

- (a) animal fat, filler, beef, tripe, liver and fresh animal blood;
- (b) carbohydrate sweetener;
- (c) other seasonings (except tomato);
- (d) harmless lactobacilli cultures;
- (e) lactic acid starter culture (Pediococcus cerevisiae);
- (f) blood plasma,

and may be enclosed in a casing, with or without subsequent dipping in vinegar, smoking or cooking.

15. Pre-packaged sausages and sausage meats shall be labelled with the type or types of meat that have been used in their manufacture.

- 16. No person shall sell sausages or sausage meats which contain-
 - (a) less than 75 per cent of meat, as determined by the official method:
 - (b) more than 25 per cent of the meat content in the form of fat, as determined by the official method;
 - (c) a total viable bacterial count of 500,000 micro-organisms per gram, as determined by an acceptable method; or
 - (d) any pathogenic micro-organisms.

17. Notwithstanding paragraphs 15, 16(*a*) and 16(*b*), Low Meat (naming the type) Sausages that contain-

- (a) less than 75 per cent meat, but not less than 40 per cent meat; and
- (b) proteinaceous substances such as skim milk powder, butter milk powder, whey powder, soya bean flour, fish protein concentrate, and other proteins approved by the Minister on the advice of the Food Advisory Committee;

may be sold if-

- (c) the total protein content of the sausage as determined by the official method, is equal to that corresponding to 75 per cent meat, of the type named;
- (d) the percentage of fat is not greater than 18 per cent as determined by the official method; and
- (e) the sausages are labelled "Low Meat (naming the type) Sausage with added Protein" and the type of protein added is named on the label.

18. Notwithstanding paragraphs 16(a), 16(b) and 17, Sausages Canned in Broth, Brine or a Liquid Medium shall contain-

- (a) not less than 55 per cent of meat, as determined by the official method:
- (b) not more than 18 per cent of the meat content in the form of fat, as determined by the official method; and
- (c) not less than 10 per cent of digestible protein, as determined by the official method.

Food and Drugs	Chap. 30:01	87
Food and Drugs Regulations		[Subsidiary]

DIVISION 14—JAMS, JELLIES AND MARMALADES

1. In this Division

- "acid ingredient" means citric acid, malic acid, fumaric acid, L-tartaric acid, vinegar, lime juice or lemon juice;
- "fruit" means all fruits commonly recognised as human food, and includes ginger, melon, tomato, and rhubarb, but does not include cucumber, chestnut, pumpkin or squash;

"fruit content" means the percentage by weight of the final product which is represented by the total weight of the prepared fruit used for processing;

"prepared fruit" means-

- (a) in relation to jams and marmalades—
 - (i) fruit, sound, fresh, freed from stems, calices and seeds (where seeds are not customarily included in the jam or marmalade); or
 - (ii) the prepared fruit used in making any fruit pulp or puree used in processing to jam or marmalade; and
 - (b) in relation to jellies, the strained fruit juice or nectar used in processing jellies.

2. (Naming the Fruit)—Jam shall be the food prepared by processing the edible parts of the fruit named, the pulp of the fruit named, or the preserved named fruit, by boiling with water and sugar to a suitable consistency and shall contain not less than 66 per cent of water-soluble solids as estimated by the refractometer at 20°C. and may contain—

- (*a*) that amount of added pectin and acid ingredient that reasonably compensates for any deficiency in the natural pectin content or natural acidity of the named fruit; and
- (b) Class II preservatives.

3. (Naming the Citrus Fruit)—Marmalade shall be the food of jellylike consistency prepared by boiling together the peel, juice or pulp of the named citrus fruit with sugar and water, and shall contain not less than 65 per cent of water-soluble solids as estimated by the refractometer at 20°C., and may contain—

- (*a*) the amount of pectin or acid ingredient which reasonably compensates for any deficiency of the natural acidity or natural pectin content of the named citrus fruit; and
- (b) Class II preservatives.

4. (Naming the Fruit)—Jelly shall be the gelatinous food, free of seeds and pulp, prepared from the named fruit, the juice of the named fruit, a concentrate of the juice of the named fruit, or canned or frozen juice, which has been boiled with water and sugar, and shall contain not less than 65 per cent of water-soluble solids as estimated by the refractometer at 20°C., and may contain—

- (*a*) that amount of added pectin and acid ingredient that reasonably compensates for any deficiency in the natural pectin content or natural acidity of the named fruit; and
- (b) Class II preservatives.

5. No jam, jelly or marmalade shall contain artificial flavour, or any gelling agents other than pectin.

6. Synthetic food colours may only be used as additives in jams, jellies and marmalades made from pineapples, apples or limes.

7. Prepared fruit for preparing jams and marmalades may be used in the form of fruit-pulp or puree which has been canned, frozen, pasteurised, dried, freeze-dried, or preserved with sulphur dioxide.

8. (1) Subject to subparagraph (2), the fruit content of jams, jellies and marmalades shall be stated on the label of every container thereof.

(2) Where the fruit content of jams, jellies or marmalades is greater than or equal to the following standard values for the named fruit products, the word "Standard", instead of the fruit content thereof, may be used on the label of the container—

Apple jelly		•••		45 per cent fruit content
Apricot jam				40 per cent fruit content
Guava jam				45 per cent fruit content
Guava jelly				45 per cent fruit content
Lime marmalade				30 per cent fruit content
Mixed orange and g	rapefruit	marmala	de	30 per cent fruit content
Mixed raspberry and	l strawbe	rry jam		40 per cent fruit content
Orange jelly				30 per cent fruit content
Orange marmalade				30 per cent fruit content
Pineapple jam				45 per cent fruit content
Pineapple jelly				45 per cent fruit content

Food and Drugs Regulations		[Subsidiary]

9. Jams, jellies and marmalades may contain the following optional ingredients:

- (a) herbs, spices;
- (b) essential oils;
- (c) alcoholic beverages;
- (*d*) butter, margarine, or edible vegetable oils added as antifoaming agents during preparation; or
- (e) caramel.

10. In preparing jams, jellies and marmalades, dextrose, invert sugar, glucose syrup, dried glucose syrup, or honey may be used in addition to sugar in accordance with good manufacturing practices.

11. Food additives used in preparing jams, jellies and marmalades, including-

anti-foaming agents; essential oils; firming agents; natural fruit flavouring preparations; pH adjusting agents; synthetic food colours,

shall be approved by the Director, shall meet specifications accepted or recommended by the Director, and shall be used in such proportions as are recognised as being in conformity with good manufacturing practice, or as indicated by the Director.

12. Jams and jellies manufactured from tropical fruits (other than citrus fruits) and intended for export to countries other than the Caribbean Islands or Guyana shall conform—

- (a) to the standards of the importing country; or where no such standards exist;
- (*b*) to any standard adopted by the Codex Alimentarius Commission for jams or jellies which is not lower than the appropriate standard specified in paragraph 8(2).

13. The provisions of this Division do not apply to cranberry jelly, fruit curd, mincemeat, mint jelly, or to jams, jellies and marmalades containing synthetic sweetening agents, which are labelled with a statement that they are intended for use by diabetics, or with the word "Diabetic".

DIVISION 15—SWEETENING AGENTS

1. Honey is the sweet substance produced by honey bees (*Apis mellifica*) mainly from the nectars of flowers and blossoms, other sweet exudations from living plants, and other wholesome sweet substances which the bee might naturally collect in the course of its foraging, and shall contain—

- (a) not more than 23 per cent of moisture;
- (b) not more than 8 per cent of sucrose;
- (c) not more than 0.25 per cent of ash.

Ch. 67:53. Sub. Leg. 2. Notwithstanding regulations 58(a) and 64 of the Beekeeping and Bee Products Regulations, the net contents of tin or glass containers of less than ten pounds capacity containing honey shall be marked as required by these Regulations.

3. The registered number of the apiary shall be declared in accordance with the Beekeeping and Bee Products Regulations on the main panel of the label.

DIVISION 16—LABELLING OF FOOD TO BE USED IN MARKETING TESTS

1. The Director may issue a letter of authorisation, authorising the sale of a quantity of food for the purpose of test marketing within a specified area and for a specified period stated in the letter of authorisation if—

- (*a*) the manufacturer or distributor of the food has supplied to the Director the following information:
 - (i) the purpose for which test marketing of the food is required;
 - (ii) a description of any proposed variation from the standard of composition and labelling requirements;
 - (iii) a description of the food including a sample and label;
 - (iv) adequate data to show that the use of the food will not be detrimental to the health of the purchaser or user;
 - (v) the quantity of the food to be distributed;
 - (vi) the period of time required for the distribution;
 - (vii) the areas designated for the distribution; and
 - (viii) such other data as the Director may require; and
- (b) the manufacturer or distributor of the food has agreed—
 - (i) to describe the food on a label or in an advertisement in a manner that is not false, misleading or deceptive;

- (2) (Naming the Vegetable or Fruit) ketchup may contain—
 - (*a*) food colour;
 - (b) a Class II preservative;
 - (c) thickening agents; and
 - (d) tomatoes or tomato products as one of its secondary ingredients.

5. (1) The mould count for ketchup shall not exceed 40 per cent positive microscope fields as determined by the Howard Method.

(2) Yeast cells present in ketchup shall be non-viable.

6. Ketchup shall be free from fly eggs and maggots, except for Drosophila fly, in the case of which, there shall not be more than twenty eggs and one larva or ten eggs and two larvae of Drosophila fly, per 100 grams of ketchup.

DIVISION 18—IRRADIATED FOOD

- 1. Irradiated food shall be food which-
 - (a) has been subjected to safe levels of ionising and non-ionising radiation; or
 - (b) contains an ingredient which has been subjected to safe levels of ionising and non-ionising radiation.
- 2. Sources of irradiation for food shall include—
 - (a) X-rays from sources operated at energy levels of up to 5MeV;
 - (b) gamma rays from the radionuclides 60 Co and 137 Cs only, operated at energy levels of up to 5MeV;
 - (c) electrons from sources operated at energy levels of up to 10MeV; and
 - (*d*) ultra violet radiation operated between the wavelengths 220 and 300 nm, where 90 per cent of the radiation consists of the wavelength 254 nm.

3. The average dose absorbed by a food or ingredient which has been subjected to irradiation shall not exceed—

- (a) 45 kGy, for sterile foods;
- (b) 10 kGy, for dried herbs and spices;
- (c) 3 kGy, for fresh poultry and poultry products;
- (d) 7 kGy, for frozen poultry and poultry products;
- (e) 4.5 kGy, for fresh red meats;
- (f) 7 kGy, for frozen red meats;

(g) 3 kGy, for seafoods;

(h) 2 kGy, for fresh fruits and vegetables;

(*i*) 1 kGy, for bulbs and tubers; and

(*j*) 1 kGy, for cereals and grains,

where measured by an acceptable method.

4. Where re-irradiation of food or an ingredient is necessary, the total average dose absorbed shall not exceed the levels set out in paragraph 3.

5. A package of irradiated food shall carry the international irradiation symbol, the radura and a statement such as "Food Irradiated", "Irradiated", "Treated with Irradiation" or "Treated by Irradiation" in close proximity to the symbol.

6. (1) Shipping documents in respect of irradiated food, including a bill of lading and an invoice, shall state the location and date of the treatment, the average dose absorbed and a lot number.

(2) The importer, manufacturer or distributor of irradiated food shall retain the shipping documents for a minimum period of one year from the expiry date of the food.

7. A package used for holding food during irradiation shall be-

- (a) cellophane, coated with nitrocellulose or with vinylidene chloride copolymer;
- (b) glassine paper;
- (c) paperboard coated with wax;
- (*d*) uncoated polyolefin films;
- (e) polyolefin films with a coating consisting of acrylonitrile, acrylic acid, taconic acid, methyl acrylate and methyl methacrylate and not less than 85 per cent vinylidene chloride;
- (f) kraft paper derived from unbleached sulphate pulp;
- (g) polyethylene terephthalate film;
- (*h*) polystyrene film;
- (*i*) rubber hydrochloride film;
- (*j*) vinylidene chloride-vinyl chloride basic copolymers, consisting of not less than 70 per cent vinylidene chloride;
- (*k*) nylon 11;
- (l) nylon 6; or
- (m) ethylene-vinyl acetate copolymers.
- 8. This Division shall not apply to treatments by microwave.

	Food and Drugs	Chap. 30:01	97
-	Food and Drugs Regulations		[Subsidiary]

5. (1) **Rock salt** shall be crude rock salt or halite obtained from the mining of salt.

(2) **Solar salt** shall be salt prepared by the solar evaporation of sea water or natural brine.

(3) **Granulated salt** shall be salt prepared by the vacuum evaporation of purified brine.

(4) **Table salt** shall be fine, crystalline salt which may contain anticaking agents, crystal modifiers, iodine and fluorine.

(5) **Coarse crystal salt** shall be salt to which food additives have been added to produce coarse crystals of sodium chloride.

(6) **Dendritic salt** shall be salt which has had its crystal habit altered by incorporating sodium ferrocyanide in the brine during vacuum evaporation.

(7) **Flake salt** shall be salt produced by the Grainer process in which the crystals are modified without the use of chemical additives.

- 6. The label on a package of food grade salt shall carry the statement—
 - (a) "Food grade salt" or "Table salt";
 - (b) "Iodized", where it contains potassium iodide with or without dextrose, sodium bicarbonate or sodium thiosulphate, at the levels set out in paragraph 4(1)(b);
 - (c) "Fluoridated", where it contains levels of sodium fluoride set out in paragraph 4(1)(*b*); and
 - (d) "Free flowing", where anticaking agents are used.

DIVISION 20—BREWERY PRODUCTS

1. In this Division—

"hop" means the ripened cones of the female hop plant, humulus lupulus and includes hop extract, hop pellets and pre-isomerised hop extract;

- "hop extract" means an extract prepared from the female hop plant in accordance with paragraph 11(1);
- "hop pellets" means pellets produced from the female hop plant in accordance with paragraph 11(2) and (3);

"pre-isomerised hop extract" or "pre-isomerised hop pellets" means an extract or hop pellets, as the case may be, prepared from the female hop plant in accordance with paragraph 11(4);

"sugar" means any saccharine substance, saccharine extract or saccharine syrup;

"wort" means any extract or solution convertible into beer;

"yeast" means saccharomyces cerevisiae or saccharomyces carlsbergensis.

2. Ale shall be a beverage produced by the fermentation by yeast, of a wort, to which other ingredients may have been added and which has been brewed in such a manner as to have the aroma, flavour and other characteristics that are commonly recognised in ale.

3. **Beer** shall be a beverage produced by the fermentation by yeast, of a wort, to which other ingredients may have been added and which has been brewed in such a manner as to have the aroma, flavour and other characteristics that are commonly recognised in beer.

4. **Lager** or **Lager beer** shall be a beverage produced by the fermentation by yeast, of a wort, which has been stored at cold temperatures during clarification and maturation and brewed in such a manner as to have the aroma, flavour and other characteristics that are commonly recognised in lager or lager beer.

5. **Malta** shall be a beverage produced by combining wort, sugar, hops and carbon dioxide, to which yeast flavour or other flavour may have been added, which has the aroma, flavour and other characteristics that are commonly recognised in malta but which has no alcoholic content by volume when measured by an acceptable method.

6. **Malt liquor** shall be a beverage produced by the fermentation by yeast, of a wort, to which other ingredients may have been added and which has been brewed in such a manner as to have the aroma, flavour and other characteristics that are commonly recognised in malt liquor.

7. Milk stout shall be a stout to which lactose has been added.

8. **Porter** shall be a beverage produced by the fermentation by yeast, of a wort, to which other ingredients may have been added and which has been brewed in such a manner as to have the aroma, flavour and other characteristics that are commonly recognised in porter.

9. (1) **Shandy** shall be a beverage containing bright beer, shandy concentrate, sugar, carbon dioxide and water.

(2) **Shandy** shall not contain more than 1.2 per cent alcoholic content by volume.

UNOFFICIAL VERSION

10. **Stout** shall be a beverage produced by the fermentation by yeast, of a wort, to which other ingredients may have been added and which has been brewed in such a manner as to have the aroma, flavour and other characteristics that are commonly recognised in stout.

11. (1) Hop extract to be used in a brewery product shall be produced by—

- (a) a process in which carbon dioxide or ethanol is used as a solvent in accordance with good manufacturing practice; or
- (b) any other method approved by the Director.

(2) Hop pellets to be used in a brewery product shall be produced by hammering or milling hops to a fine powder, running the powder through a high pressure pelletising disc and cooling and vaccum-packing the resulting pellets.

(3) No additives shall be used in producing hop pellets.

(4) Pre-isomerised hop extract or pre-isomerised hop pellets to be used in a brewery product shall be produced by using carbon dioxide or ethanol from which the alpha-acids have been isolated and isomerised with dilute acid and heat.

12. (1) Near beer, non-alcoholic beer, non-alcoholic ale, non-alcoholic stout or non-alcoholic porter, as the case may be, shall be a brewery product which has an alcoholic content by volume of 0.5 per cent or less.

(2) Low alcohol beer, low alcohol ale, low alcohol stout or low alcohol porter, as the case may be, shall be a brewery product which has an alcoholic content by volume of more than 0.5 per cent but not more than 1.2 per cent.

(3) Extra light beer, extra light ale, extra light stout or extra light porter, as the case may be, shall be a brewery product which has an alcoholic content by volume of more than 1.2 per cent but not more than 2.5 per cent.

(4) Light beer, light ale, light stout or light porter, as the case may be, shall be a brewery product which has an alcoholic content by volume of more than 2.5 per cent but not more than 4.0 per cent.

(5) Ale, beer, stout or porter, as the case may be, shall be a brewery product which has an alcoholic content by volume of more than 4.0 per cent but not more than 5.5 per cent.

(6) Strong beer, strong ale, strong stout, strong porter or malt liquor, as the case may be, shall be a brewery product which has an alcoholic content by volume of more than 5.5 per cent but not more than 8.5 per cent.

(7) Extra strong beer, extra strong ale, extra strong stout, extra strong porter or extra strong malt liquor, as the case may be, shall be a brewery product which has an alcoholic content by volume of more than 8.5 per cent.

SECOND SCHEDULE

DIVISION 1—THIRD SCHEDULE DRUGS

1. No person shall sell a Third Schedule drug unless he has received a prescription therefor; and the prescription shall show—

- (*a*) the name and address of the person for whom the drug may be dispensed;
- (b) the name and quantity of the drug specified therein;
- (c) the directions for use given therewith;
- (*d*) the date of the prescription; and
- (e) the signature of the practitioner, who issued the prescription,

and where the signature is not known to the dispenser of the prescription, the signature shall be first verified by him.

2. A record of every prescription for a Third Schedule drug shall be retained by the dispenser thereof for a period of at least two years, and shall show—

- (a) the name and address of the person named in the prescription;
- (b) the name and quantity of the drug specified therein;
- (c) the name of the practitioner who issued the prescription;
- (*d*) the date and number of the prescription;
- (e) the directions for use given therewith.

3. No person shall refill a prescription for a Third Schedule drug unless the practitioner so directs on the prescription, and specifies the number of times that the same may be refilled.

- 4. No person other than—
 - (a) a practitioner;
 - (b) a drug manufacturer;
 - (c) an importer, wholesaler, jobber, or agent, dealing in drugs;
 - (d) a pharmacist; or
 - (*e*) a resident of a foreign country while a visitor in Trinidad and Tobago shall import a Third Schedule drug.

5. The provisions of paragraph 1 do not apply to the sale of a Third Schedule drug to—

(a) a drug manufacturer;

	OF THE	ATTORNET	GENERAL	AND	LLGAL	AFFAINS	www.iegaiairairs.gov.tt
MINISTRV	OF THE	ATTORNEY	GENERAL		LECAL	AFFAIRS	www.legalaffairs.gov.tt

104	Chap. 30:01	Food and Drugs
[Subsidiary]		Food and Drugs Regulations

5. (1) The Director may, on application therefor—

- (*a*) issue a licence to any fit and proper person, to sell controlled drugs; or
- (b) issue a permit to any licensed dealer to import or export a controlled drug.

(2) The provisions of subparagraph (1)(a) do not apply to a practitioner or pharmacist.

LAWS OF TRINIDAD AND TOBAGO

6. A licence or permit is subject to the condition that the person to whom it is issued, will comply with the provisions of this Division.

7. The Minister may revoke or suspend a licence or a permit issued under this Division if in his opinion the person to whom it is issued, or any person in his employ, has violated or failed to comply with any term or condition thereof or any provision of this Division except that a licence shall not be revoked where the violation is by an employee unless that violation is in connection with controlled drugs in the possession, or under the control, of the licensed dealer.

8. A licence unless it is sooner revoked expires on 31st December next following the day of which it was issued; and where a licence is suspended it has no validity during the period of suspension.

9. A permit is valid only for the importation or exportation in respect of which it is issued.

10. Subject to the terms of his licence and to the provisions of this Division, a licensed dealer may only sell or supply a controlled drug to—

- (a) another licensed dealer;
- (b) a hospital.

11. No licensed dealer shall sell or supply a controlled drug to any other licensed dealer unless—

- (a) he has received a written order therefor from such other licensed dealer; and .
- (*b*) he has first verified the signature of that other licensed dealer if the signature is unknown to him.

12. No licensed dealer shall sell or supply a controlled drug to a hospital unless—

(*a*) he has first received a written order therefor from the pharmacist in charge of the hospital dispensary or from a physician or dentist authorised by the hospital to sign the order; and

UNOFFICIAL VERSION

 Food and Drugs	Chap. 30:01	105
Food and Drugs Regulations		[Subsidiary]

(b) he has first verified the signature of that person if the signature is unknown to him.

13. A licensed dealer carrying on the business of a pharmacy, or any pharmacist employed by him for the purposes of that business, may sell a controlled drug to any person if-

- (a) the drug forms part of the stock in trade of the pharmacy;
- (b) he has first received a prescription in writing authorising the dispensing of the drug;
- (c) the prescription has been dated and signed by the practitioner who issued it; and
- (d) the signature of the practitioner is first verified if the signature is unknown to him.

14. Every licensed dealer, who is a manufacturer, wholesaler, or importer shall keep a separate book or register in which he shall enter or cause to be entered-

- (a) the name, quantity and form of any controlled drug received by him, the name and address of the person who supplied it and the date on which it was received;
- (b) the name, quantity and form of any controlled drug sold or supplied, the name and address of the person to whom it was sold or supplied, and the date on which it was sold or supplied;
- (c) the name and quantity of any controlled drug used in manufacturing, the name and quantity of any controlled drug manufactured, and the date any manufactured controlled drug was placed in stock;
- (d) the name, quantity and form of any controlled drug he had in stock at the end of each month,

and every required entry shall be made within forty-eight hours of the receipt or disposition of the controlled drug.

15. Every practitioner, and every pharmacist in control of a place of business for the purposes of section 26 of the Pharmacy Board Act, shall keep- Ch. 29:52.

- (a) bills and invoices of all purchases or consignments of all controlled drugs received by him;
- (b) a record of the name, quantity and form of any controlled drug sold or supplied, the name and address of the person to whom it was sold or supplied (or if supplied pursuant to a

	prescription, the name of the person for whom it was dispensed and the name of the practitioner who issued the prescription), and the date on which it was sold or supplied;(c) a record of the name and quantity of any controlled drug used in manufacturing, the name and quantity of any controlled drug manufactured, and the date any manufactured controlled drug was placed in stock;				
	(d) all controlled drugs under his charge in locked cupboards; and every required entry shall be made within forty-eight hours of the receipt or disposal of the controlled drug.				
	16. A licensed dealer who carries on the business of a wholesaler dealing in drugs and the business of a pharmacy shall keep separate registers, as required by paragraph 14, in respect of each such business.				
	17. No pharmacist or practitioner shall refill a prescription for a controlled drug unless the practitioner so directs in the prescription and specifies the number of times it may be refilled and the dates on which it may be refilled.				
Ch. 29:52.	18. Every pharmacist who dispenses a controlled drug shall initial the prescription therefor; and the pharmacist in control of a pharmacy for the purposes of section 26 of the Pharmacy Board Act, shall maintain a special prescription file in which he shall file or cause to be filed in sequence as to date and number, all written orders and prescriptions for controlled drugs dispensed, sold, or supplied, and such orders and prescriptions shall be kept in the file for a period of at least two years from the date on which they were filled.				
	19. Every practitioner who dispenses a controlled drug pursuant to a prescription written by himself or another practitioner shall keep a special prescription file in which he shall file in order as to date all written orders and prescriptions for controlled drugs sold, supplied or dispensed by him.				
	20. Every licensed dealer (including a practitioner, or pharmacist) shall keep on his premises for a period of at least two years all records that are required to be kept by these Regulations, and the records shall be kept in a manner which will enable an audit thereof to be made at any time.				
	21. Every licensed dealer shall take all necessary steps to protect controlled drugs in his possession or under his control against loss or theft and shall report to the Director any such loss or theft of a controlled drug within ten days of the discovery thereof.				

LAWS OF TRINIDAD AND TOBAGO MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt

UNOFFICIAL VERSION

MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt

Food and Drugs	Chap. 30:01	107
Food and Drugs Regulations		[Subsidiary]

22. Nothing in this Division prohibits the sale to the Government by a licensed dealer of controlled drugs for its medical supplies but every officer in charge of Government medical supplies shall keep a separate register in which he shall enter or cause to be entered-

- (a) the name, quantity and form of any controlled drug received by him:
- (b) the name, quantity and form of any drug distributed or supplied by him to any authorised person or institution.

In this paragraph "authorised person or institution" means any person or institution to whom the officer is authorised by the Chief Medical Officer to distribute the drugs.

DIVISION 3—NEW DRUGS

1. In this Division-

"appointed day" means the day on which the Act came into operation;

"new drug" means-

- (a) a drug that contains or consists of a substance whether as an active or inactive ingredient, carrier, coating, excipient, menstruum or other component that has not been imported into Trinidad and Tobago for use as a drug prior to the appointed day;
- (b) a drug that is a combination of two or more drugs with or without other ingredients, and that has not been imported into Trinidad and Tobago prior to the appointed day in that combination or in the proportion in which those drugs are combined; or
- (c) a drug, with respect to which the manufacturer prescribes, recommends, proposes or claims a use as a drug, or a condition of use as a drug, including dosage, demonstration or duration of action, and that has not been imported into Trinidad and Tobago prior to the appointed day for that use or condition of use:

"notice of approval" means notice of approval in respect of a new drug given by the Minister pursuant to paragraph 7.

2. (1) No person shall import, sell or advertise for sale a new drug unless-

> (a) the manufacturer or importer has filed with the Minister in duplicate, a new drug submission in Form C in the Third Third Schedule. Schedule in respect of that drug, and paid to the Comptroller Form C.

sending notice to the manufacturer or importer of that new drug and the withdrawal may be made where—

- (a) evidence obtained from clinical or other experience, or from tests by new methods or by methods not used before the approval was given, reveals that the new drug is not shown to be safe for the use represented in the submissions in respect of the new drug which were filed with the Minister and on which the approval was based;
- (b) the submissions in respect of the new drug which were filed with the Minister and on which approval was based, contain any untrue statement of material fact; or
- (c) the withdrawal is necessary in the interests of public health.

Notice of withdrawal of approval in respect of a new drug shall be published in the *Gazette* and at least one newspaper having daily circulation in Trinidad and Tobago.

9. Where any manufacturer or importer receives any report of any unexpected side effects, injury, toxicity or sensitivity reaction associated with the clinical uses, studies, investigations and tests respecting a new drug, he shall inform the Minister as soon as possible of the side effects, injury, toxicity or sensitivity reaction.

10. Notwithstanding anything to the contrary in this Division, a new drug may be imported for the use of investigators qualified to use the drug for the sole purpose of obtaining clinical and scientific data with respect to its safety, stability, dosage, or efficacy, if—

- (*a*) before the importation, the Minister is informed of the identifying name or mark by which the drug may be recognised;
- (b) both the inner and outer labels on any package of the new drug carry the statement "To Be Used By Qualified Investigators Only";
- (c) before the sale, the importer ensures that any person to whom the new drug is to be sold is a qualified investigator and has the facilities for the investigation to be conducted by him, and obtains in writing from that person an undertaking that the new drug will be used solely by that person or under his direction;
- (d) the investigators have written authority from the Minister to carry out the investigation of the new drug and have the facilities for so doing.

MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt

112	Chap. 30:01	01 Food and Drugs	
[Subsidiary] Food and Drugs Regulations		Food and Drugs Regulations	

11. A person who imports a new drug for the purposes of sale to qualified investigators shall keep accurate records of the sales, and make these records available for inspection on the request of the Minister.

12. Notwithstanding anything to the contrary in this Division, the Minister may grant permission in writing to any person to import any specified quantity of a new drug, for the purpose of enabling that person to make a new drug submission or to file a supplement thereto.

DIVISION 4—OFFICIAL DRUGS

An official drug labelled as required by regulation 34 shall satisfy the standard mentioned on the label.

DIVISION 5—ANTIBIOTICS

Ch. 30:02.

An antibiotic which is imported, exported, manufactured, dispensed or sold, in accordance with the Antibiotics Act and any Regulations made thereunder is exempted from the provisions of these Regulations.

DIVISION 6—NARCOTIC DRUGS

27 of 1961.

Ch. 29:52.

A narcotic drug which is sold, dispensed, imported, exported, or manufactured, in accordance with the Narcotic Control Ordinance and any Regulations made thereunder, is exempted from the provisions of these Regulations except regulation 38.

DIVISION 7—POISONOUS DRUGS

A poisonous drug which is sold by wholesale or retail, or dispensed in accordance with the Pharmacy Board Act and any Regulations made thereunder is exempt from the provisions of these Regulations.

DIVISION 8—CONDITIONS, FACILITIES AND CONTROLS FOR DRUG MANUFACTURE

1. For the purposes of this Division—

- "drug manufacturer" means any person or firm which manufactures, compounds, or packages a drug for wholesale in the pharmaceutical form in which it is sold by retail to the general public, but does not include a pharmacist or pharmacy manufacturing, or compounding or packaging drugs on the premises where the drugs are sold by retail;
- "manufacture" includes mixing, compounding, preparation, and similar physical processes, synthesis or any similar chemical processes and packaging for wholesale, but does not include dividing, sub-dividing, and re-packaging for sale by wholesale or retail.

UNOFFICIAL VERSION

Food and Drugs	Chap. 30:01	113
Food and Drugs Regulations		[Subsidiary]

2. No drug manufacturer shall sell a drug in the finished pharmaceutical form in which it is sold to the general public unless the drug has been manufactured, preserved, stored, labelled and tested under suitable conditions as provided in this Division, and a Certificate to this effect has been issued by the Director, on the advice of the Drug Advisory Committee.

3. For the purposes of paragraph 2, suitable conditions in respect of a drug requires—

- (a) that the construction, fittings, and furnishings of the area in a building where the drug is manufactured shall be of such material and finish as—
 - (i) will permit the efficient cleaning of all surfaces;
 - (ii) will prevent the introduction of extraneous materials into drugs during their manufacture and testing;
 - (iii) will prevent the migration of dust and its accumulation;
- (*b*) that adequate lighting, ventilation, and drainage facilities be provided in the manufacturing area;
- (c) that all processing and packaging equipment be cleaned following the manufacture of each batch or lot of the drug;
- (d) in the event parenteral drugs are processed, that all fillings and aseptic processes shall be carried out in a separate and enclosed area designed for the processing and filling of the drugs and operated in a manner that will prevent contamination of the drug compounded and filled;
- (e) that qualified personnel shall be employed as supervisors in the formulation, processing, testing, packaging and labelling of the drug, and the personnel shall have such technical training as the Director on the advice of the Drug Advisory Committee may deem necessary, having regard to the nature of the duties and the responsibilities involved;
- (*f*) that qualified personnel shall be responsible for the maintenance of machinery, equipment and sanitation;
- (g) that each lot or batch of raw material or bulk material used in manufacturing the drug shall be tested to ensure identity and purity of the raw material or bulk material using tests of pharmacopoeial or equivalent status;

6. A drug manufacturer may be permitted by the Director to dispense with tests, controls, records and samples mentioned in paragraph 3(g), (h), (j) and (k), and paragraph 5, where the nature of the drug is such that these tests, controls, records and samples are, in the opinion of the Director, not necessary.

LAWS OF TRINIDAD AND TOBAGO

7. A drug manufacturer in a country other than Trinidad and Tobago shall be deemed to have complied with paragraphs 2, 3, 4 and 5, if the manufacturer or importer of a drug or drugs has produced to the Director a certificate concerning the sale, safety, or manufacture of the drug or drugs issued by—

- (a) the Department of National Health and Welfare of Canada;
- (*b*) the Department of Health, Education and Welfare of the United States, or a State or City authority in the United States concerned with health or pharmacy;
- (c) the Ministry of Health of the United Kingdom;
- (d) the Department of Health of Australia;
- (e) any Government Department or official body in other countries issuing such certificates as comply with regulation 10 or paragraph 3(f)(v) of Division 3 of this Schedule, which Schedule. are considered by the Director to show that adequate standards for conditions of drug manufacture are enforced in those countries, in respect of that drug manufacturer.

8. A drug manufacturer in Trinidad and Tobago, may, if he does not employ qualified personnel to carry out the tests required by paragraph 3(f)(i) and (ii)—

- (a) import batches or lots of raw or bulk material accompanied by certificates of identity and purity issued by an agency approved by the Director;
- (*b*) submit a sample of each batch or lot of the drug in finished pharmaceutical form for testing to the Director, or to an agency or laboratory designated by the Director,

and shall not use any batch or lot of the raw material imported without such certificates nor sell any lot or batch of any drug in finished pharmaceutical form until the results of the tests for that lot or batch have been accepted by the Director.

9. No person shall sell or advertise a new drug manufactured in Trinidad and Tobago that was not manufactured in Trinidad and Tobago before 1st February 1969, unless—

(*a*) the drug manufacturer has filed with the Director in duplicate a New Drug Submission relating to the drug in accordance with paragraphs 10 and 11; and

 Food and Drugs	Chap. 30:01	117
Food and Drugs Regulations		[Subsidiary]

12. The Minister shall, on the recommendation of the Drug Advisory Committee, within one hundred and twenty days after the filing of the New Drug Submission in respect of a drug manufactured in Trinidad and Tobago—

- (a) notify the person filing the same whether the data and information submitted satisfies the requirements of paragraph 10;
- (b) if these requirements are satisfied and it appears to the Minister after consultation with the Drug Advisory Committee, that the drug is safe for use as a drug, issue a Notice of Approval in respect of that drug.

13. The Minister may, after consultation with the Drug Advisory Committee, withdraw approval in respect of any drug manufactured in Trinidad and Tobago by sending a notice to the manufacturer of the drug and the withdrawal may be made where—

- (a) evidence obtained from clinical or other experience, or from tests by new methods or by methods not used before the approval was given, reveals that the drug is shown not to be safe for the use represented in the submissions in respect of the drug which were filed with the Minister and on which the approval was based; or
- (b) the submissions in respect of the drug which were filed with the Minister and on which approval was based, contain any untrue statement of material fact; or
- (c) the withdrawal is necessary in the interest of public health.

Notice of withdrawal of approval in respect of a drug shall be published in the *Gazette* and at least one newspaper having daily circulation in Trinidad and Tobago.

14. Where the Minister issues a notice of withdrawal in respect of a drug manufactured in Trinidad and Tobago, the drug manufacturer shall immediately withdraw from the market in Trinidad and Tobago, all batches or lots of that drug at his own expense, and deliver all the lots or batches to the Director.

15. Where any manufacturer receives any report of any unexpected side effects, injury, toxicity or sensitivity reaction associated with the clinical uses, studies, investigations and tests respecting a drug manufactured in Trinidad and Tobago he shall inform the Director as soon as possible of the side effects, injury, toxicity or sensitivity reaction.

54/1972.

OFFICIAL METHOD NOTIFICATION

issued under regulation 3 of the Food and Drugs Regulations

The following method of analysis or examination of Ultra Heat Treated Milk or U.H.T. for Colony Count has been designated by the Minister as the official method:

OFFICIAL METHOD OF ANALYSIS OR EXAMINATION OF ULTRA HEAT TREATED MILK OR U. H. T. MILK FOR COLONY COUNT

1. Apparatus: The following apparatus shall be used:

- (a) McCartney bottles of 1 fluid ounce capacity;
- (b) test tubes plugged with cotton wool or covered with closely fitting aluminium caps or stored in such a way as to prevent contamination;
- (c) a standard iridium-platinum loop of 4 mm. internal diameter made from wire conforming to British Standard Wire Gauge 19 and containing 10 per cent iridium. The loop, when used as directed, should transfer about 0.01 ml. of milk to the molten medium in a tube or a McCartney bottle;
- (*d*) an incubator capable of operating at a preselected temperature within the range 30°C. to 37°C. and of maintaining the preselected temperature within 1°C.;
- *(e)* a water bath capable of maintaining the water at a temperature of not less than 45°C. and not more than 50°C.; and
- (f) a refrigerator fitted with a reliable automatic thermo-regulator capable of maintaining a temperature of between 3° C. and 5° C.

2. Culture Medium: A culture medium prepared as follows should be used:

<i>(a)</i>	Yeastrel	3g.
	peptone	5g.
	agar	15g.

(If New Zealand agar is used 12g. is normally sufficient).

Fresh whole milk	10 ml.
Distilled water	1,000 ml.

UNOFFICIAL VERSION

MIN

Official Method Notification	[Subsidiary]	
Food and Drugs	Chap. 30:01 125	
NISTRY OF THE ATTORNEY GENERAL AND LEGAL AF	FAIRS www.legalaffairs.gov.tt	

- (b) the Yeastrel and peptone shall be dissolved in the distilled water in a steamer and the reaction at room temperature adjusted to pH 7.4, using phenol red as an indicator or using a pH meter. When phenol red is used, a brightness screen must be employed with Lovibond phenol red disc 2/IJ. The agar and the milk shall then be added to the broth and autoclaved at 121°C. for 25 minutes. If shredded agar is used, it shall be wrapped in muslin and washed in running water for 15 minutes, the excess water being squeezed out before the agar is added to the broth. To ensure thorough mixing and that heat treatment of the bulk at this stage is equivalent to the final sterilisation of the tubed medium, quantities of not more than 2 litres shall be autoclaved in 3litre conical flasks. The hot medium shall then be filtered through paper pulp in a Buchner funnel;
- (c) the pulp shall be prepared by mashing up small pieces of filter paper in water and boiling. The funnel shall be inserted into an Erlenmeyer flask fitted with a side piece and a single layer of filter paper laid on the top of the Buchner funnel to prevent the pulp being sucked through. The hot pulp shall then be poured on to the filter paper and a filter pump applied to suck through the excess water, which shall then be poured away. The pulp should be firmly packed down just before the last of the water is sucked through. At this stage a layer of filter paper shall be laid on the filter bed, so that the hot medium can subsequently be poured on to it without disturbing the pulp. The filter when ready for use should have a total depth of about 1.5 mm. pulp layer of suitable depth and (A approximately the same depth for any size of funnel is obtained by pulping an area of filter paper equal to four times the square of the diameter of the funnel. With ordinary grade filter paper 1 g. of the dry paper will be required for every 20 sq. cm. of filtering area);

7. Method of carrying out the test:

- (*a*) After the sample has been thoroughly mixed as described in paragraph 6, it shall be opened with aseptic precautions as follows:
 - (i) if the sample is contained in a carton, one of the corners or edges of the carton shall be thoroughly swabbed with alcohol and the excess burnt off. The carton shall then be opened by cutting off this corner or edge using a pair of sterile scissors;
 - (ii) if the sample is contained in a bottle, the closure and neck of the bottle shall be thoroughly swabbed with alcohol and the excess burnt off. The closure shall then be removed by means of a sterile opener;
 - (iii) if the sample is a container other than a carton or bottle a suitable surface of the container shall be thoroughly swabbed with alcohol and the excess burnt off. A hole in that sterile surface shall then be punched using a sterile tool.
- (b) Immediately after opening the sample container, the cap from a sterile McCartney bottle shall be removed and approximately 10 ml. of the sample transferred by means of a sterile pipette to the bottle, the cap replaced and the McCartney bottle put in the refrigerator. A further 10 ml. (approximately) of the sample shall be transferred to a sterile test-tube after removing the plug. The plug shall then be replaced.
- (c) With as little delay as possible, a loopful of milk from the test-tube sample shall be transferred to a sterile test-tube or a 1 ounce McCartney bottle containing about 5 ml. of melted yeastrel milk agar medium at 45°C. to 50°C. The loop, after being flame-sterilised and cooled, shall be lowered into the milk about 1 inch below the

surface and a loopful of milk withdrawn and transferred to the molten medium in the tube or McCartney bottle. The contents of the tube or bottle shall then be carefully mixed, the tube or bottle placed in a sloping position and the medium allowed to set. The tube or bottle shall then be incubated in a sloping position at a temperature of between 30°C. and 37°C. for forty-eight hours and at the end of that time it shall be examined for the presence of colonies.

8. Counting of colonies: Colonies shall be counted within four hours of the expiry of the incubation period.

9. Interpretation: The test shall be deemed to be satisfied by a sample if the number of colonies is found to be less than 10. If there is any doubt about the result, the test should be repeated using the sample in the McCartney bottle placed in the refrigerator.

PART III

GENERAL REQUIREMENTS FOR ESTABLISHMENTS

57. (1) The surface of floors in wet working areas where fish General is received, held or processed shall be sloped for drainage purposes and constructed of concrete or such other material as the competent authority may approve.

(2) Floors in dry working areas shall be properly constructed of such material as the competent authority may approve.

(3) Drains shall be of a type and size sufficient to carry off process effluents and water from cleaning operations and shall be equipped with traps or other devices to preclude the entry of gases or vermin into the building through the drains.

(4) Inside surfaces of walls in wet working areas where fish is received, held or processed shall be constructed of smooth, waterproof, light coloured material that is acceptable to the competent authority and that can be thoroughly washed up to a height of not less than four feet.

(5) Natural or mechanical ventilation systems shall provide clean air, remove undesirable odours, steam and smoke and prevent condensation in rooms where work is performed.

(6) Toilet facilities of types and in numbers approved by the competent authority shall be provided.

(7) Rooms in which toilet facilities are located shall have doors of a type approved by the competent authority.

(8) Sanitary washbasins equipped with hot and cold running water, liquid or powdered soap, hand sanitizers, foot operated faucets and air dryers or single service towels, of types shall be provided.

(9) A foot bath shall be placed at each entrance to the processing area and maintained with an adequate supply of an appropriate sanitizer.

(10) An adequate supply of safe, sanitary water that has a residual chlorine level of 5 ppm and a zero coliform bacteria count, determined by the membrane filter method shall be provided under a minimum operating pressure of 20 pounds per square inch.

(11) An establishment may use water other than water referred to in subregulation (10) for fire protection, boilers or auxilliary services if there is no connection between the water systems providing water to the establishment.

(12) The frames and legs of all equipment on which fish is processed shall be constructed of metal or other material approved by the competent authority.

(13) Tables shall be so constructed that they and the areas beneath can be readily cleaned.

(14) Bins or receptacles in which offal is stored shall be watertight, constructed of metal or other material approved by the competent authority and, where necessary to prevent contamination of the establishment or any fish processed therein, be equipped with well-fitted covers.

(15) A concrete or other suitable surface, sloped for drainage purposes, shall be placed under elevated offal bins.

(16) Wood shall not be used for the construction of any part of a conveyor that comes in contact with fish.

(17) Flumes for conveying fish shall be constructed of non-corrodible material, other than wood, and in such a manner that they can be properly cleaned.

(18) A minimum illumination intensity of 215 lm/m^2 shall be provided on all working surfaces in processing rooms.

(19) Lights over processing areas shall be shatterproof or covered with protective shields particularly in areas where food is exposed at any stage of processing.

PART IV

SPECIFIC REQUIREMENTS FOR ESTABLISHMENTS

58. (1) Rooms in which fish is processed shall have ceilings Canneries. that are free from cracks, crevices and open joints, constructed of smooth, washable, light coloured material and are of a height acceptable to the competent authority.

(2) There shall be no exposed pipes over any working surface on which fish is processed.

(3) Hot water shall be provided and maintained at a minimum temperature of 43°C in sufficient quantity for the operations of the cannery.

(4) Facilities shall be provided, at a convenient location, for disinfecting the protective hand coverings used in processing areas.

(5) Cutting, filleting and skinning boards shall be made of material that is smooth and without cracks and shall be constructed in a manner approved by the competent authority.

(6) Roller devices used for extracting lobster or crab meat shall be constructed of non-corrodible material approved by the competent authority.

(7) Surfaces other than cutting, filleting boards, on which fish is processed shall be made of non-corrodible materials, other than wood, and all joint on such surfaces shall be smooth and watertight.

(8) All receptacles, trays, containers and utensils used for processing fish shall be of non-corrodible material, other than wood, and shall have smooth surfaces free from cracks and crevices.

(9) Boxes, carts, bins and other receptacles used in a cannery for holding fish, other than live fish, before it is further processed or shipped shall be constructed so as to provide drainage and shall be of a material approved by the competent authority.

(10) Conveyor belts that come in contact with fish, other than canned fish, shall be fitted with a spray washer and, where practical, a scraper.

LAWS OF TRINIDAD AND TOBAGO MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt 224 Chap. 30:01 Food and Drugs [Subsidiary] Fish and Fishery Products Regulations

(11) Wire mesh utensils shall not be used in processing except for the handling of shellfish and crustaceans in the shell.

(12) Enamelled utensils shall not be used in processing.

(13) An adequate supply of steam shall be maintained at a sufficient pressure for the operations of the cannery.

- (14) Every cannery shall be equipped with one or more—
 - (*a*) sealing machines of a type approved by the competent authority; and
 - (b) retorts equipped with properly installed:
 - (i) mercury-in-glass thermometer;
 - (ii) pressure gauge;
 - (iii) steam spreader; and
 - (iv) venting valves.

Salted or dried fish establishments. **59.** (1) Inside surfaces of walls in dry working areas where salted or dried fish is processed or stored shall be constructed of light coloured material that is acceptable to the competent authority.

(2) Ceilings of working areas where fish is processed shall be of a height and constructed of material acceptable to the competent authority.

(3) Cutting surfaces on which fish is dressed or split shall be made of material that is smooth and without cracks and shall be constructed in a manner approved by the competent authority.

(4) Table surfaces, other than cutting and cleaning boards, on which fish is processed shall be made of noncorrodible material, other than wood, and all joints on such surfaces shall be smooth and watertight.

(5) All receptacles, trays and utensils used for holding salted fish, other than packaged fish, shall be constructed of material approved by the competent authority.

(6) Receptacles, trays and utensils in which pickled fish is held shall be constructed in such a manner that the contents thereof can drain.

(6) Fish handling equipment, such as chutes, conveyors, fish washers, tables and utensils, shall be of smooth, non-absorbent, non-corrodible material, other than wood, free from cracks and crevices and so constructed as to facilitate cleaning.

LAWS OF TRINIDAD AND TOBAGO

(7) Forks, pumps, tools or other equipment and practices that pierce, tear, or otherwise damage or contaminate the edible portion of fish shall not be used.

(8) Fish, while on board a vessel used for fishing or transporting fish, shall be—

- (a) preserved by the use of finely divided ice sufficient to reduce and hold the temperature at 4°C or lower, and such ice shall be made from potable water or clean sea water;
- (b) preserved by such other methods as the competent authority may approve; and
- (c) at the conclusion of each fishing trip all unused ice should be discarded before cleaning begins.

(9) Where chilled water systems are installed on a vessel, such systems shall be of materials approved by the competent authority and be constructed to facilitate proper cleaning and be capable of holding fish at—1°C.

(10) Freezing facilities on a vessel shall be capable of freezing the daily catch of fish at a rate equivalent to at least the freezing rate of a 25 mm thick block of fish when the temperature of the thermal centre is reduced from 0°C to—20° C in two hours or less.

(11) It is necessary that—

- (*a*) fish on board a vessel shall be frozen at a freezing rate not less than the rate prescribed by subregulation (10);
- (b) in the case of a packaged fish product on board a vessel, the time required to reduce the thermal centre of the packaged product to—20°C shall not exceed thirty-six hours.

LAWS OF TRINIDAD AND TOBAGO MINISTRY OF THE ATTORNEY GENERAL AND LEGAL AFFAIRS www.legalaffairs.gov.tt Food and Drugs Chap. 30:01 235 Fish and Fishery Products Regulations

- (12) In removing fish—
 - (*a*) except for brine frozen fish, the thermal centre of the fish on board a vessel shall be reduced to a temperature of—18°C or lower before the fish can be removed from the freezer to the cold storage area; and
 - (b) in the case of brine frozen fish on board a vessel, the thermal centre of the fish shall be reduced to—12°C before the fish can be removed from the freezer to the cold storage area.

(13) After freezing, fish on board a vessel shall be glazed or packaged to protect it against dehydration and oxidation.

(14) Storage areas in which frozen fish is held on board a vessel shall be maintained at a temperature of -26° C or lower.

(15) At least once daily, fish receiving areas and all equipment, containers and utensils used in the handling of fish on board a vessel shall be thoroughly cleaned with water from a potable water source and disinfected.

(16) Following the discharge of fish from a vessel, all equipment and utensils used in the handling of fish and the storage areas, chilled water systems, fish containers, penboards and shelfboards shall be forthwith thoroughly cleaned with water from a potable water source and disinfected.

(17) A storage record of the fish catch shall be kept on all fishing vessels and the identity of each day's catch shall be maintained.

(18) Handwashing and marine type toilet facilities shall be provided on vessels 13.7 m or more in overall length that have sleeping accommodation and shall be maintained in a clean and sanitary condition.

PART VIII

REQUIREMENTS FOR STORING FROZEN FISH

67. (1) Rooms in which frozen fish is stored shall be Frozen fish maintained at a temperature of—30°C or colder.

SECOND SCHEDULE

TABLE 1

Regulation 62(18)(a).

ACCEPTED LEVELS OF TRACE METALS, PESTICIDES AND CHEMICALS FOR FISH AND FISHERY PRODUCTS

(Food and Drugs Regulations and Fish and Fishery Products Regulations Food and Drugs Act, Chap. 30:01)

The following lists the maximum permitted or guideline levels for the presence of Trace Metals, Pesticides and Chemicals in Fish and Fishery Products in Trinidad and Tobago:

Metal							Maximum Value (ppm)
1.	Lead						2.0
2.	Copper						20.0
3.	Zinc						50.0
4.	Methyl Mercury						
	(a) All Fish ex	cept preda	atory fish				0.5
	(b) Predatory f	ish (such	as shark, sw	ordfish, tu	ına, pike aı	nd others)	1.0
Pesticid	es						
5.	Insecticides						
	Organo Chloride	S					
	Organo Phospha	tes					0.1
	Carbamates						
6.	Herbicides						0.5
7.	PCB, PCT						0.5

Chemicals

8. Sodium bisulphite—150 mg/kg sulphite for crustaceans

9. Tripolyphosphate in flesh of frozen fish-5 g/kg

- The Total Volatile Basic Nitrogen—25–30 milligrams of Nitrogen/100 grams of flesh of fish depending on species type
- 11. Histamine—100 ppm.

TABLE 2

Regulation 62(18)(b).

The following is a list of microbiological tests and their respective maximum acceptable limits used for assessment of fish and fishery products for use for human consumption:

Product	Aerobic Plate Count per g	Faecal Coliforms	Staph aureus	Salmonella	V Cholerae*
Fresh and frozen fish Fresh and frozen crustaceans	5x10 ⁵ /g 1x10 ⁶ /g	10/g 10/g	1.0x10 ³ /g 1.0x10 ³ /g	0 0/g	0 0
Smoked fish including kippered herring	1.0x10 ⁵ /g	4/g	1.0x10 ³ /g	0/gg	0
Frozen cooked crustaceans	5.0x10 ⁵ /g	10/g	1.0x10 ³ /g	0/g	0

THIRD SCHEDULE

REQUIREMENTS RESPECTING QUALITY MANAGEMENT PROGRAMMES

1. The quality management programme of an establishment shall include the keeping of the following information and documentation:

- (*a*) the name and title of the person responsible for the quality management programme at that establishment;
- (b) for each applicable control point set out in clause 2—
 - (i) a description of the standards and monitoring procedures that are used during inspections;
 - (ii) the frequency of monitoring;
 - (iii) samples of the forms that are used during inspections and of the forms that are used to record actions taken to correct deficiencies; and
 - (iv) a description of the plans developed for correcting deficiencies and maintaining compliance with the prescribed Regulations;
- (c) in respect of ingredients added to fish during processing—
 - (i) a list of all of the ingredients that are added to the fish;
 - (ii) a description of the procedures for the preparation and use of those ingredients that, if not prepared or used correctly, could taint the fish or render it unwholesome; and
 - (iii) documentation that clearly establishes that each ingredient meets all applicable requirements of Acts of Parliament and Regulations made thereunder, or the results of any tests done by or for the operator of the establishment that verify that the ingredient complies with those requirements;
- (d) in respect of the packaging materials that are used to package fish—
 - (i) a list of all of the packaging materials; and
 - (ii) documentation that clearly establishes that the packaging materials meet the requirements of prescribed Regulations;
- (e) in respect of labels used on packaged fish, a description of the approval process in the establishment with respect to labels;

(<i>f</i>)				

- lubricating and maintenance of equipment and plant facilities and in pest control:
 - (i) a list of the compounds that are used in the establishment; and
 - (ii) documentation that clearly establishes that the compounds have been approved by an agency of the Government of Trinidad and Tobago for use in food processing establishments;
- (g) in respect of fish shipped from the establishment, a description of the system used to trace fish to their first destination;
- (h) in respect of retort operations, a description of the training of the persons who supervise those operations; and
 - (i) in respect of general operations a written documentation of good manufacturing practices and sanitary standard operating procedures approved by the competent authority.

2. For the purposes of this Schedule, a control point is any one of the following stages in the processing of fish at which the operator of an establishment determines compliance with the prescribed Regulations:

- (a) the inspection of fish arriving at the establishment for processing;
- (b) the inspection of ingredients prior to their addition to fish;
- (c) the inspection of fish packaging material prior to its use;
- (d) the inspection of labels prior to their application onto packaged fish;
- (e) the inspection of cleaning agents, sanitizers, lubricants and pesticides prior to use in the establishment;
- (f) the inspection of the construction and maintenance of production facilities and processing equipment;
- (g) the inspection of the fish canning process;
- (*h*) the inspection of the retort operations;
- (*i*) the inspection of the cold storage of fish;
- (*j*) the inspection of any other process or operation in the establishment; and
- (k) the inspection of fish prior to shipment from the establishment.
