

## *TTMA Continues to assist Flood Victims.*

The Trinidad and Tobago Manufacturers' Association wishes to thank all those who contributed, both in terms of goods and services, as well as through financial support, toward its flood relief effort. The TTMA partnered with other BSOs to engage in flood relief efforts while also lead a similar drive through the organization directly. Both initiatives were extremely successful and based on your outpouring of support as corporate T&T and individuals, we are heartened to disclose that our efforts reached most, if not all flood affected areas in the country.

Through the TTMA's effort, we partnered with various organizations such as Schools, Temples, Churches, Mosques, Community based organizations, Sports Clubs, Police Clubs, Corporations, MPs and Ministers, and individuals to ensure that our efforts reached those that needed the help the most.

President of the TTMA, Mr. Christopher Alcazar shared, "As an important stakeholder in our country's future, the manufacturing community both directly and through the TTMA would assist those in need; disaster has no colour, creed or race, it can strike at any time without warning and we have a responsibility to help those in society most vulnerable." Mr. Alcazar further mentioned that "the real heroes today are the citizens of Trinidad and Tobago who gave willingly their time and resources to attempt to restore conditions to its normal state as quickly as possible, and we must recognize our people for being proudly T&T in this effort."

On December 18th, 2018, the Trinidad & Tobago Manufactures' Association received the final funds raised through its FundMeTnT campaign of TT\$144,823.00. The Cheque was handed over by Mr. Duane Hinkson, founder of the FundMeTnT campaign, to Mr. Christopher Alcazar, President of the TTMA. These funds will go toward further assisting individuals and small businesses who continue to be affected by the floods and are yet to be completely back on their feet to date.
