TTMA Commends Workers

The Trinidad and Tobago's Manufacturing Association wishes to acknowledge the efforts of the workers in the country in mobilizing to ensure that productivity was not derailed today. Based on the feedback from our membership, the call for rest and reflection did not have the intended purpose as workers reported for work in their numbers. Our membership's feedback indicated that in most instances the turnout was nothing out of the ordinary in all areas of operations.

President of the Association, Mr. Alcazar indicated that "workers have shown maturity and discipline and must be commended for their efforts. Their commitment to productivity and the greater good of moving the economy forward in our challenging environment is indicative that they are prepared to work together to move Trinidad and Tobago along a sustainable path of economic growth".
